“I call, therefore, a complete and generous education that which fits a man to perform justly, skillfully, and magnanimously all the offices, both private and public, of peace and war.”—MILTON.

The Purpose of Military Training At The Citadel

THE CITADEL is a military college, but its chief concern is to prepare men for civil life. Because of the military record of Citadel graduates, there has grown up an erroneous impression that the institution exists to prepare men for war. The college is justly proud of the war records of its sons, and it will always expect them to respond in national emergencies, but its chief purpose is to prepare men for civil pursuits by giving them a sound education reinforced by the best features of military training.

Military training teaches the value of system and order in approaching tasks, of physical and mental fitness, and of alertness and self-confidence. It teaches how to command and how to obey, how to organize and coordinate and how to maintain morale and discipline. Most important of all, it instills the conviction that any sacrifice must be made when principle is involved and that truth, honor, and integrity are the basis of character. Such virtues woven into the lives of men will produce results for good irrespective of the field in which they are applied.

A civic leader, no less than a military commander, must be prepared to meet difficult or hazardous situations courageously and effectively, to make decisions and enforce them, to lead when it is his duty to lead, and to follow when it is his duty to follow, and to inspire confidence through his resourcefulness, honesty and courage. Such qualities The Citadel attempts to develop in its cadets.

The training is not given at the expense of academic education. On the contrary, the aim is to make academic training more complete and effective through development of soldierly virtues. Graduates in many vocations and in many parts of the world attest the value of the rigorous regimen of classroom, barracks, and drill field.

Many desirable characteristics do not grow out of scholarship alone; traditions and codes may more profoundly influence college men than the most scholarly lectures. For this reason, to its academic training, which it assiduously seeks to make vital, The Citadel adds the code of the cadet and gentlemen. The visible symbol of this is the proudly worn uniform, a constant reminder that Alma Mater expects of every son the poise and culture of a student, the public spirit and unselfishness of an enlightened citizen, the courage and loyalty of a soldier, and the honor and bearing of a gentleman.

College Calendar for 1935-1936

1935

September 6 and 7—Examinations for Conditions and Admission.

September 7, Saturday—College opens, 10 A. M.

November 11, Monday—Armistice Day (Holiday).

November 28, Thursday—Thanksgiving Day (Holiday).

December 20, Friday—Christmas Furlough begins, 12 M.

1936

January 6, Monday—Christmas Furlough ends, 8 A. M.

January 20 to 25—First Semester Examinations.

January 27, Monday—Second Semester begins.

February 22, Saturday—Washington's Birthday (Holiday).

April 8, Wednesday—Easter Furlough begins, 1 P. M.

April 14, Tuesday—Easter Furlough ends, 8 A. M.

May 23 to 29—Second Semester Examinations.

May 30, Saturday—Commencement.

Organization

BOARD OF VISITORS

COL. JOHN P. THOMAS, <i>Chairman</i>	Charleston, S. C.
COL. JAMES G. PADGETT, <i>Vice-Chairman</i>	Walterboro, S. C.
COL. A. E. HUTCHISON.....	Rock Hill, S. C.
COL. J. R. WESTMORELAND.....	Pacolet, S. C.
COL. D. A. SPIVEY.....	Conway, S. C.
COL. E. B. JACKSON.....	Wagener, S. C.
COL. WADE C. HUGHS.....	Walhalla, S. C.

EX OFFICIO

HIS EXCELLENCY, OLIN D. JOHNSTON, Governor, Columbia, S. C.
BRIG.-GEN. JAMES C. DOZIER, Adjutant General, Columbia, S. C.
HON. JAMES H. HOPE, State Superintendent of Education, Columbia, S. C.
HON. P. H. McEACHIN, Chairman Military Committee, Senate, Florence, S. C.
HON. W. O. COLEMAN, Chairman Military Committee, House of Representatives, Greenwood, S. C.

College Faculty

(In Order of Seniority)

GENERAL CHARLES PELOT SUMMERALL, LL.D.
President

COLONEL HUGH SWINTON MCGILLIVRAY, A.B., PH.D.
Professor of English

COLONEL LOUIS KNOX, B.S., M.S.
Professor of Chemistry and Biology

COLONEL LOUIS SHEPHERD LETELLIER, M.S.
Professor of Civil Engineering

COLONEL NEWLAND FARNSWORTH SMITH, PH.B., PH.D.
Professor of Physics

COLONEL SMITH JOHNS WILLIAMS, A.B., M.A.
Professor of History

LIEUTENANT-COLONEL JOHN WALTON LANG, Infantry, U. S. A.
Professor of Military Science and Tactics

LIEUTENANT-COLONEL HAROLD CARTER WINSHIP, A.B., M.A.
Professor of Modern Languages

MAJOR CLIFTON LECROY HAIR, B.S.
Professor of Mathematics

MAJOR JOHN ANDERSON, C.E.
Professor of Civil Engineering

MAJOR LEONARD AUGUSTUS PROUTY, A. B.
Professor of Psychology and Education

MAJOR MARION SMITH LEWIS, A.B., M.A.
Professor of Business Administration

MAJOR EUGENE VILLARET, Coast Artillery, U. S. A.
Associate Professor of Military Science and Tactics

MAJOR CARL FRANCIS MYERS, JR., B.S.
Associate Professor of Mathematics

MAJOR ALFRED EMMANUEL DUFOUR, A.B.
Associate Professor of Modern Languages

*MAJOR MILTON BOONE KENNEDY, A.B., M.A.
Associate Professor of English

COLLEGE FACULTY—Continued

MAJOR JAMES KARL COLEMAN, B.S., M.A., Ph.D.
Associate Professor of History

MAJOR RALPH CADOT HOLLIDAY, Infantry, U. S. A.
Associate Professor of Military Science and Tactics

MAJOR RALPH MILLEDGE BYRD, B.S., M.S., Ph.D.
Associate Professor of Chemistry

CAPTAIN WILLIAM QUINTILLIS JEFFORDS, JR., Coast Artillery, U. S. A.
Assistant Professor of Military Science and Tactics

CAPTAIN ARTHUR PIERSON MCGEE, Infantry, U. S. A.
Assistant Professor of Military Science and Tactics

CAPTAIN LUTHER BRENNER, B.S., M.S.
Associate Professor of Physics

CAPTAIN FRANK CAMBRIDGE TIBBETTS, B.S., M.B.A.
Associate Professor of Business Administration

CAPTAIN RALPH MUSE LYON, B.S., M.A., Ph.D.
Associate Professor of Psychology and Education

CAPTAIN CHARLES T. RAZOR, B.S.
Assistant Professor of Physics

CAPTAIN JUSTUS ALVIN TIEDEMAN, B.S.
Assistant Professor of Business Administration

CAPTAIN JAMES GERATY HARRISON, B.S., B.LITT., M.A.
Assistant Professor of English

CAPTAIN JOE HENRY WATKINS, B.S.
Assistant Professor of Chemistry and Biology

CAPTAIN JOHN ALVAH LEE SAUNDERS, B.S., M.A.
Assistant Professor of Mathematics

CAPTAIN RAY EDWARD DINGEMAN, Coast Artillery, U. S. A.
Assistant Professor of Military Science and Tactics

FIRST LIEUTENANT HILLIARD GALBRAITH HAYNES, A.B., B.S. in C.E.
Assistant Professor of Civil Engineering

FIRST LIEUTENANT WILLIAM SYLVESTER PRICE, A.B., M.A.
Assistant Professor of Modern Languages

FIRST LIEUTENANT ROBERT WALLER ACHURCH, A.B., M.A.
Assistant Professor of English

FIRST LIEUTENANT PAUL RUPARD SANDERS, A.B.
Assistant Professor of English

COLLEGE FACULTY—Continued

FIRST LIEUTENANT GEORGE CRAIG STEWART, Infantry, U. S. A.
Assistant Professor of Military Science and Tactics

SECOND LIEUTENANT JAMES WILLIAM DUCKETT, B.S., M.S.
Assistant Professor of Chemistry

SECOND LIEUTENANT PAUL EVERETT REYNOLDS, A.B., M.A.
Assistant Professor of English and Modern Languages

SECOND LIEUTENANT CHALMERS GASTON DAVIDSON, A.B., M.A.
Assistant Professor of History

SECOND LIEUTENANT PAUL EDWIN GRAVELY, A.B., M.A.
Assistant Professor of Mathematics

SECOND LIEUTENANT JOHN GIDEON CASE, B.S. in C.E., M.C.E.
Assistant Professor of Civil Engineering

SECOND LIEUTENANT JAMES RICHARD GRAVES, B.S.
Instructor in Drawing

SECOND LIEUTENANT EDWIN HENDERSON LEWIS, B.S. in Com., M.B.A.
Assistant Professor of Business Administration

*On leave of absence for one year.

Administrative Staff

GENERAL CHARLES P. SUMMERALL.....	<i>President</i>
LIEUTENANT-COLONEL JESSE GASTON.....	<i>Commandant</i>
SECOND LIEUTENANT F. P. HAGER.....	<i>Assistant Commandant</i>
COLONEL R. S. CATHCART, M.D.....	<i>Surgeon</i>
COLONEL E. M. TILLER.....	<i>Quartermaster</i>
MAJOR JOHN ANDERSON.....	<i>Adjutant</i>
MAJOR L. A. PROUTY.....	<i>Registrar</i>
LIEUTENANT-COLONEL J. W. LANG.....	<i>Assistant Registrar</i>
MAJOR D. S. McALISTER.....	<i>Director of Cadet Affairs</i>
MR. TATUM W. GRESSETTE.....	<i>Director of Athletics</i>
MR. CARL H. METZ.....	<i>Band Director</i>
MR. J. M. LELAND.....	<i>Y. M. C. A. Secretary</i>
MRS. K. M. GAILLARD.....	<i>Librarian</i>
MRS. A. E. MALLOY, R.N.....	<i>Nurse in Charge of Hospital</i>
MASTER SERGEANT R. A. SCHELLIN, U. S. A., Retired.....	<i>Mess Officer</i>
MRS. R. A. SCHELLIN.....	<i>Matron of Mess Hall</i>
SERGEANT E. W. F. ALSLEV.....	<i>Technical Sergeant</i>
SERGEANT C. R. N. WILLETT.....	<i>Staff Sergeant</i>
SERGEANT R. J. ROUTT.....	<i>Ordnance Sergeant</i>

ADMINISTRATIVE ASSISTANTS

MRS. B. B. POLHEMUS.....	<i>Secretary to the President</i>
MISS ISABEL STONEY.....	<i>Secretary to the Quartermaster</i>
MISS ESTHER GAILLARD.....	<i>Secretary to the Commandant</i>
MISS DOROTHY MITCHELL.....	<i>Secretary to the Director of Cadet Affairs</i>

Historical Sketch

PREVIOUS to the year 1842, the state of South Carolina had two depositories for its arms and munitions of war—one known as The Citadel, in the city of Charleston; the other known as The Arsenal, in the city of Columbia. These were guarded by companies of enlisted men and trained officers, and were maintained at an expense of twenty-four thousand dollars a year.

It was Governor Richardson who made the suggestion that these garrisons be replaced by young men, who, while serving as guards, should receive military training, and instruction in the practical and mechanical arts. Under the administration of his successor, Governor Hammond, an act of the legislature was passed, on December 20, 1842, creating The Citadel and Arsenal Academies.

The board appointed by the governor to carry out the purpose of the act lost no time in performing its duty, and the faculty of The Citadel was elected on February 23rd following. By March 20th both The Citadel and The Arsenal were in operation.

In arranging the course of studies for The Citadel, the report of the board to the General Assembly says:

"The Board has aimed at a system of education at once scientific and practical, which, if their original design is carried out, will eminently qualify the cadets there taught for almost any station and condition of life.

"During the course, besides the usual branches taught at the primary schools in the State, they will be instructed in the history of South Carolina, modern history, the French language, every department of mathematics, bookkeeping, rhetoric, moral philosophy, architectural and topographical drawing, natural philosophy, chemistry, geology, mineralogy, botany, civil and military engineering, the constitutional law of the United States, and the law of nations. In addition to that course, they will be instructed in the duties of the soldier, the school of the company and the battalion, the science of war, the evolution of the line, and the duties of commissioned officers."

The Arsenal, at first co-equal with The Citadel, was soon incorporated with it, and had for its special function the instruction and training of the recruits forming what was known as the Fourth Class.

The first class, numbering six men, was graduated in 1846. C. C. Tew, the first honor man of his class, and proto-graduate of the institution, afterwards founded the Hillsboro Military Academy, North Carolina, was Colonel of North Carolina troops in the Confederate Army, and was killed at Sharpsburg, September, 1862, while commanding Anderson's brigade.

The value to the state of the military training given at The Citadel is strikingly shown, by the fact that, of the two hundred and forty

graduates before the close of the War between the States, about two hundred were officers in the Confederate service, and forty-three laid down their lives upon the battlefield. The list of Citadel officers in that great conflict is an honor roll of which any institution may well be proud.

There are two dates in the history of the state military academies which mark the boundaries of this great military struggle of the last century. Between January 9, 1861, and May 9, 1865, what a tragic history was enacted!

On the former date, Major P. F. Stevens, Superintendent, and a graduate of The Citadel, in command of a detachment of Citadel Cadets manning a battery of 24-pounders on Morris Island drove off the steamer, "Star of the West," which was attempting the relief of Fort Sumter—thus firing the first hostile shot of the war.

On the latter date, Captain J. P. Thomas, Superintendent of The Arsenal, and also a graduate of The Citadel, with the Arsenal cadets at his command, had a skirmish with Stoneman's raiders, near Williamston, S. C., thus firing the last shot of the war discharged by any organized body of Confederate troops east of the Mississippi.

At the present time, the corps of cadets has an annual drill for the "Star of the West" medal, a handsome trophy for the best drilled cadet of the corps, presented to the institution many years ago by Dr. B. H. Teague, a veteran of the war. This medal gets its name from a piece of oak wood, in the form of a star, taken from the historic vessel.

At the fall of Charleston, in February, 1865, The Citadel was occupied by Federal troops. The corps of cadets was at that time in the field and never returned to the institution, which continued in the hands of the United States military authorities, in spite of the best efforts of the state to recover it, until 1881.

In that year, Governor Hagood said in his annual message to the General Assembly:

"The State Military Academy at Charleston has been suspended in its operations since the late civil war. This has been due to the fact that the building known as The Citadel, in which it has its seat, has been since the close of the War in the possession of the United States authorities, and has been used by them until recently as a military post.

"It is understood that the General Government is now prepared to restore it to the custody of the State. It is desirable that this property be recovered and again devoted to the purpose of higher education, in the facilities for which our needs are greater than the source of supply.

"A measure will probably be submitted to you at this session to accomplish this purpose and you will permit me to say that, in my judgment, it is now practicable to reopen the school, and it ought to be done."

An act to authorize the reopening of the South Carolina Military Academy was passed by the General Assembly, and approved January 31, 1882.

The Citadel was reopened on October 1, 1882, with 189 cadets, and has been in continuous and successful operation ever since.

In 1910, the legislature fixed the title of the institution as The Citadel, The Military College of South Carolina.

In 1918, the city of Charleston offered the state a magnificent tract of nearly 200 acres of land adjacent to Hampton Park, and beautifully situated on the banks of the Ashley River, for a Greater Citadel. The legislature accepted the offer and made in 1919 and 1920 appropriations for the necessary buildings.

On September 20, 1922, the college opened in its commodious new quarters, which had been provided at a cost of more than a million dollars. The facilities in laboratories and classrooms have been largely increased, dormitory accommodations have been enlarged forty per cent and ample and beautiful grounds for all military work and athletic activities have been provided.

The Mary Bennett Murray Hospital, erected at a cost of sixty thousand dollars by a public-spirited citizen of Charleston, was presented to the college in 1923, and is one of the most complete and well-equipped infirmaries in the South. In this year, also, the Alumni Hall was erected with a fund of fifty thousand dollars subscribed by graduates and former cadets.

During the year 1926, a new dormitory was constructed to accommodate 350 additional cadets. This building is called Andrew B. Murray Barracks, in honor of the citizen of Charleston who generously contributed half the cost of the construction.

In the year 1927, two faculty houses were constructed on the campus, one for the president, and the other, containing four apartments, for administrative officers and professors. In 1931, another building was erected to provide quarters for the dean and the commandant. Most of the professors have quarters in the Old Citadel at Marion Square.

General Information

ATHLETICS

The climate of Charleston permits open-air exercise throughout the year; and the setting-up exercises, daily drill, and the intramural sports of the cadets furnish the best means of securing bodily health and growth. Special attention may be given those cadets who may require particular exercises for specific needs.

The coaches of the various athletic teams are competent and experienced and use due care to prevent injurious training on the part of cadets who engage in athletics.

It is the policy of the institution to give every reasonable encouragement to athletics, and to see that all contests are conducted on a clean, amateur basis. The athletic interests are controlled by a well-organized athletic association, under the supervision of a board of control. The Citadel is a member of the Southern Intercollegiate Athletic Association.

A wide range of opportunity is offered to the cadet to find some branch of athletics in which he may excel or from which he may derive pleasure and profit. Regular teams are organized in football, baseball, fencing, tennis, basketball and relay racing. Attention has recently been concentrated on a program of improving facilities for recreational athletics. Added facilities include a swimming pool, a nine-hole golf course on the campus, six tennis courts, a quarter-mile cinder track with a 220-yard straightaway, necessary equipment for training a track team, and an adequately equipped auxiliary gymnasium. Cadets may arrange to take private riding lessons at moderate cost.

While intercollegiate sports are encouraged and supported by the authorities, they are firmly subordinated to the prescribed work of the college, and nothing that will hamper the progress of the cadets in their studies, or introduce irregularities into the routine of the college, is permitted.

It is the observation of the authorities that clean, well-conducted athletics in an institution of learning fosters a fine spirit of loyalty and manliness. It is the purpose here to derive a full measure of this benefit, and in addition, to provide wholesome recreation for the cadets.

AUTOMOBILES

Automobiles may be kept by cadets at The Citadel with the written consent of parents or guardians. This privilege may be revoked for cause.

Automobiles not classified as dependable transportation will not be authorized.

The cars are to be used only during general or special leaves. No signs, lettering, slogans or words will appear thereon.

The Citadel assumes no responsibility for the safekeeping of automobiles.

Cadets will conform to the state and city laws concerning automobiles and their operation. State and city licenses are required.

In accordance with the requirement of the General Assembly a course in automobile driving and traffic laws is given at the college.

CADET AFFAIRS

The Cadet Affairs include athletics, both intercollegiate and intramural; the canteen; the annual called *The Sphinx*; the weekly called *The Bull Dog*; the literary magazine called *The Shako*; the dances; the class fund; and other extracurricular activities. These are financed largely by the Cadet Activities Fee of \$15.00.

The supervision of athletics rests with the Board in Control of Athletics. All other activities are under the control of the Cadet Activities Committee composed largely of cadets. All the activities are under the executive management of a faculty officer known as the Director of Cadet Affairs, who is ex-officio a member of and secretary to all committees. The Director of Cadet Affairs is also treasurer of the various cadet activities funds.

Canteen—A canteen carrying all the articles of ordinary necessity is operated in each barracks. The canteen stewards are selected cadets under the supervision of the Cadet Activities Committee. A barber shop and a tailor shop are under the canteen management. The tailor shop handles the cleaning, pressing and repair of uniforms. An expert tailor is in charge, and the shop is equipped to make most articles of clothing needed by cadets. The profits of the canteen are allocated to the various activities by the Cadet Activities Committee.

Publications—*The Bull Dog* is published weekly by a staff of cadets. It is financed by the cadet activities fees augmented by the revenue from subscriptions and the sale of advertising space. *The Sphinx* is published annually by its staff of cadets. The purpose of this publication is to provide a permanent record of the activities of each session in order that memories and associations may be preserved. The Cadet Activities Fee provides an allotment of \$3.00 a cadet for *The Sphinx*. This is supplemented by the sale of advertising space. *The Shako* is published several times a year. It is supported by voluntary subscriptions and the income from advertisements.

Dances—The Citadel dances form an important part of the social life of the corps. These dances are managed and controlled by cadet committees under faculty supervision. The regulations governing these dances are simple. Frequent informal dances are given, the music being furnished by the cadet orchestra. A small charge is made to defray the expenses of these informal dances.

Class Fund—There are five formal dances each year: the Thanksgiving Hop; the Christmas Hop; the Senior Hop; the Easter Hop; and the Commencement Hop. These are financed by the Class Fund, a fund made up of optional payments of \$5.00 a cadet. A cadet paying this fee is admitted to these five dances without further charge. Cadets who pay for these dances separately find that the cost is much more. Patrons are urged to include the payment to the Class Fund in the first installment paid the quartermaster in order that the cadet may enjoy these dances at a minimum cost.

Other Activities—Other activities are: The Glee Club; "Pass in Review," a musical revue produced by the Glee Club; and the cadet orchestra, called "The Bull Dogs."

COLLEGE YEAR

The college year begins the first week of September and ends the last week of May.

It is divided into two semesters of four months each, and examinations are held at the end of each semester. Reports showing the records of the cadets in studies and conduct are sent to parents and guardians monthly and at the end of each semester.

CUSTOMS AND COURTESIES

"Customs and Courtesies," a twenty-nine page booklet published at The Citadel, is designed to provide cadets with a compact manual of good deportment.

This manual is used as the text-book in a course in deportment given by the Department of Military Science and Tactics.

After explaining clearly the value of a knowledge of the correct way of conducting oneself in social contacts, the booklet presents detailed information on such matters as personal appearance and dress, correct speech, table manners, introductions, calling cards, calling, social correspondence, overnight visits, and punctuality.

That the booklet is of high practical value is testified to by the fact that many persons not connected with the college have requested copies.

FURLOUGH

A suspension of work for ten days, including Christmas Day and New Year's Day, is required by law.

The corps of cadets is furloughed from Commencement Day, in May, until the opening of the following session in September. There are Easter holidays of about six days.

During the session, furloughs will be granted only for some urgent reason, and parents are requested not to apply for leaves of absence for their sons unless in case of necessity. In every case the reason for the furlough will be stated, and it must be left to The Citadel authori-

ties to determine whether the circumstances warrant the approval of the furlough. Parents applying for the admission of their sons to The Citadel relinquish control over them to the authorities of the institution. The time allotted to studies and military work is essential for the completion of the required courses, so that cadets must not be absent except when it is absolutely necessary; and the whole system of discipline depends upon uniform requirements for all, and no special privileges to any.

HAZING

One of the bugbears of college life, which has been talked about and magnified beyond its due importance, is hazing. The practice of hazing is fortunately getting less and less common in our colleges. It is a practice which should be totally abolished, because, if countenanced at all, it almost invariably is carried to an excess by a few irresponsible students.

At The Citadel, where all the cadets live together in two barracks, as one big family, the presence of individuals who are obsessed with the idea that beatings and indignities are a part of a student's education cannot be tolerated; and no student is wanted in the corps who does not subscribe voluntarily to the regulations which absolutely bar hazing from the corps.

The regulations concerning hazing are contained in the following resolution of the Board of Visitors:

Whereas, The Statutes of the State make it unlawful for any student to engage in hazing (XXVIII, Statutes at Large, page 619), and

Whereas, This Act requires the governing boards of all colleges supported in whole or in part by the State to formulate and issue such regulations as may be necessary to enforce this law,

Therefore, be it resolved, That the Board of Visitors of The Citadel, in compliance with the law cited, hereby adopts the following regulations:

1. Every cadet will be required to subscribe to the following promise:

I, (Name of cadet), hereby promise that I will not engage in hazing in any form during my connection with The Citadel.

(Signature of Cadet.)

2. In any apparent case of hazing, where the facts do not come directly under the observation of the authorities, the commandant of cadets will require each cadet in the corps to make a statement whether he was involved in the case, and, if so, the facts relating to his connection therewith. In every case where a cadet is guilty of hazing, he shall immediately withdraw from The Citadel, and the facts in the case together with the statement of the cadet will be forwarded to the Board of Visitors.

3. The acceptance of these regulations by the parents or guardian of each cadet and also by the cadet himself will be required before such cadet will be admitted to the college.

4. Hazing is defined to be striking, laying hands upon, treating with violence, or offering bodily harm to a cadet who has been connected with the college for less than one year, or other treatment of a harassing, tyrannical, abusive, insulting, or humiliating nature, or that may endanger the physical well-being of such cadet.

LIBRARY

The college library is situated on the third floor of Bond Hall and is easily accessible. It consists of a large, airy, and well lighted reading room, stack rooms and office for the librarian. It contains works of reference for all departments of the college, such as: the *Oxford English Dictionary*; the 14th edition, *Encyclopaedia Britannica*; the *Cambridge Modern History*; and the *Cambridge History of English Literature*. There are separate departmental libraries housed in the departments of Chemistry, Physics, and Civil Engineering, but all the books are catalogued in the college library. Large and important additions have been made in recent years by gifts from General C. P. Summerall; General Henry Jervey; Mr. James C. Allen; Mr. A. S. Salley, Jr., Class of 1892; Major W. St. J. Jervey, Class of 1894; Mr. T. E. L. Lipsey, Class of 1894; Mr. R. M. Lyon, Class of 1923; Cadet V. E. Stollbrandt, Class of 1935; Mrs. O. J. Bond; and Mrs. F. M. Robertson.

The librarian cooperates with the various departments by keeping in the reading room where they are easily accessible shelves of books related to the current work in the departments.

The reading room is plentifully supplied with current magazines and newspapers.

LITERARY SOCIETIES

There are two cadet societies for the discussion of subjects of interest, and for the development of proficiency in public speaking: The Round Table and The Forum. Membership in The Round Table is restricted to a limited number of the most intellectual cadets, its members being selected from eligibility lists prepared by a committee of the faculty. Membership in The Forum is open to all cadets desiring to join. This society sponsors addresses, orations, and debates; several of its members have spoken over the radio.

RELIGIOUS SERVICES

The religious training of cadets is provided by daily morning prayer attended by the corps, by regular Sunday morning services conducted at The Citadel by the various ministers of the city, and by the Bible-study groups and other activities of the Cadet Y. M. C. A.

RESERVE OFFICERS' TRAINING CORPS

At The Citadel there are two units of the R. O. T. C.: infantry and coast artillery. The corps of cadets is organized into a regiment of a band and two battalions, one infantry and one coast artillery. Each battalion has its own barracks.

Seven carefully selected regular army officers and three non-commissioned officers are detailed by the War Department to conduct military training. Graduates are qualified for commission in the Officers' Reserve Corps of the Army of the United States.

At the close of the session in June of each year, juniors in the R. O. T. C. go to the government camps for the special training provided by the War Department. These encampments are closely supervised and furnish an excellent opportunity for the cadet to get a pleasant vacation and to meet college men from other sections of the country. Transportation, meals, housing, medical attendance and uniforms, and pay at the rate of 70 cents a day are furnished by the government.

All cadets who are not aliens are in the R. O. T. C. unless they fail to conform to War Department physical standards or are dropped for cause.

SYSTEM OF MANAGEMENT

The Citadel is essentially a military college, and all the students live in cadet barracks. From reveille to taps, the Citadel cadet passes a full and busy day, every hour of his time being accounted for, and its appropriate task performed.

Leadership, initiative, and character are developed by placing upon cadets the great responsibility of controlling all units in the military organization.

The regular habits of study and living thus formed, the attention to duty, obedience to authority, and love of order inculcated are considered among the most valuable features of the education given. While few of the graduates of the college enter the military profession, hundreds in all walks of civil life attest to the high value of the training received at the institution.

During the first five weeks freshmen are quartered in a separate barracks from upper-classmen, except for carefully selected cadet officers and non-commissioned officers, who are detailed as their instructors. Only these upper-classmen, and others who may be on temporary official business, are permitted to enter the freshman barracks.

Y. M. C. A.

The Citadel Y. M. C. A. was organized in 1886, and is a valuable influence in the student life of the college.

While the faculty has oversight of the work, it is an institution of the boys, for the boys, and by the boys. Here all meet on equal terms; all cadets are welcomed, and there is thrown around the new student a wholesome atmosphere of personal interest, which enables him to meet

more courageously and successfully the hard battles that every student must fight.

The supervision and extension of the work is in the hands of a student committee, cabinet, and an executive secretary, who devotes his entire time to work at The Citadel.

The regular weekly meetings of the association are addressed by prominent clergymen, professional and business men of the city. At frequent intervals, these meetings are addressed by noted men from the greater religious, secular, and educational institutions of the country, speakers brought here by the city Y. M. C. A. Contact with these men is an education in itself, and the moral and religious influence of their helpful messages is most profound. A series of vocational talks finds place among the lectures delivered at these meetings.

The efficiency of association leaders and the effectiveness of the work are greatly increased by the yearly attendance of cadets at county, state, and international conventions and summer schools. Bible-study classes are organized each year, and taught by members of the faculty and the religious leaders of the city. Mission study is also provided for and from time to time the student's horizon is broadened through lectures by foreign work representatives. The religious problems of the homeland are also given due consideration.

A handbook, published by the association, is presented each year to the students at the beginning of the first semester.

Recreation rooms equipped with magazines, games, and radios are operated by the association for the enjoyment of cadets. Telephone service is also provided. The post office and the Y. M. C. A. office are located in the same room. The secretary performs many services for the cadets. Among these is the maintenance of a depository for the safe-keeping of money and valuables.

The faculty heartily commends the work of the association, and it is recommended that every parent or guardian encourage the student under his care to affiliate himself with the Y. M. C. A. as soon as he enters The Citadel.

EXPENSES

Since it is a state institution The Citadel is not operated for profit. More than half the actual cost of maintaining a cadet is borne by the state. The fees are therefore exceptionally low.

REGISTRATION AND TUITION

The registration fee of \$5.00 is payable when cadet is enrolled and it is not returnable. The tuition fee is \$60.00 for South Carolina cadets and \$150.00 for out-of-state cadets.

MAINTENANCE

The charge for board is \$162.00; for room, heat, light, water, laundry and hospital, \$72.00. There is a breakage fee, not returnable, of \$4.00.

UNIFORMS

As all cadets are required to be in uniform, which will be issued at the college, new students need not come with any supply of civilian clothing other than the suits they wear. It is advisable to bring inexpensive trunks or suit cases.

The cost of uniforms and other clothing varies among the students, and from year to year. Cadets should always have a deposit for clothing to their credit, no clothing being issued otherwise. The uniforms should last two or more years if cadets are careful, and the cost of clothing after the first year should be small. The average cost for the four years should not be more than for suitable civilian clothing.

A deposit of \$10.00 for uniform is payable when the cadet is enrolled. For a new cadet requiring a complete outfit other payments are as follows: September 7, \$50.00; November 20, \$40.00; February 1, \$40.00. The cost of a gray overcoat, which is optional, is \$33.50. Many new cadets buy used overcoats, thus saving a part of this expense. All purchases of used uniforms must have the approval of an inspecting officer.

Parts of uniform and book deposits not used will be refunded.

OTHER FEES

Other fees required are:

For all cadets—A Cadet Activities Fee of \$15.00, made up as follows: \$1.00 for *The Bull Dog*, the cadet newspaper; \$3.00 for *The Sphinx*, the cadet annual; \$9.00 for athletics; and \$2.00, required of Protestants only, for the Y. M. C. A.

For freshmen and sophomores—\$25.00 for books and laboratory fees.

For freshmen who elect drawing—\$10.00 for drawing equipment.

For juniors and seniors—\$15.00 for books and laboratory fees.

A payment of \$5.00 for the class fund is optional.

SUMMARY OF FRESHMAN EXPENSES

	S. C. Cadets	Out-of-State Cadets
Registration—not returnable.....	\$ 5.00	\$ 5.00
Tuition	60.00	150.00
Uniforms—		
Deposit when enrolled	10.00	10.00
Other payments	130.00	130.00
Maintenance—		
Board	162.00	162.00
Room, heat, light, water, laundry and hospital	72.00	72.00
Breakage	4.00	4.00
*Books	25.00	25.00
Cadet Activities Fee	15.00	15.00
	<hr/>	<hr/>
Total	\$483.00	\$573.00

EXPENSES FOR OLD CADETS

For old cadets the expenses are the same except for uniforms, the cost usually being about \$100.00 less.

PAYMENTS

The fees for registration, tuition, uniforms, maintenance, books, and cadet activities for the first year are paid in amounts as follows:

	S. C. Cadets	Out-of-State Cadets
When enrolled	\$ 15.00	\$ 15.00
First installment, September 9	169.00	191.50
Second installment, November 20.....	111.00	133.50
Third installment, February 1	111.00	133.50
Fourth installment, April 1	77.00	99.50
	<hr/>	<hr/>
Total	\$483.00	\$573.00

In settlement of all fees remittance should be made by money order or check made payable to E. M. Tiller, Quartermaster, and mailed to him direct.

The low fees and small appropriations at The Citadel are based on minimum current expenses. There is no reserve fund to carry accounts. All fees must therefore be paid in advance in the amounts and on the dates stated in the preceding tabulation. Where patrons are unable to make such payments it will be necessary to withdraw the cadets concerned.

*For freshmen taking drawing there is an additional charge of \$10.00. See explanation just above in "Other Fees."

GENERAL

The time of a cadet at The Citadel is completely taken up with his duties, hence no sort of employment can be offered by which the expenses may be reduced. However, attention is called to the fact that juniors and seniors receive approximately \$70.00 cash a session from the War Department, and if this is applied on college fees it will materially reduce the expenses of the last two years.

SCHOLARSHIPS

Detailed information regarding scholarships will be found on pages 25 and 26.

HOSPITAL

The hospital facilities at The Citadel are excellent, and all ordinary cases of sickness are treated by the surgeon and nurses of the college without expense to the parent. Surgical cases requiring the removal of a cadet to an infirmary in the city, services of a special nurse in the college hospital, and special treatment of eyes, ears, teeth, etc., must be at the expense of the parent or guardian.

CLOTHING AND BEDDING

All cadets are required to furnish their own bedclothes. Beds and mattresses are provided by the college, but pillows are not. A mattress cover will be issued at cost to each cadet. Cadets should come provided with the following articles:

Six shirts, without collars preferred	Four wash cloths
Six suits of underwear	One pillow
Three pajamas	Three pillow cases
One bathrobe	Four sheets for single bed
Six pairs of black socks	Two pairs of blankets
One dozen handkerchiefs	One comfort
Six towels	Toilet articles
Two laundry bags about 24 x 26 inches.	
Two pairs <i>black</i> shoes, either high or low cut, with rubber heels.	

Before the opening of the session, a new cadet is assigned a laundry number, which he retains as long as he remains at The Citadel. Clothing should be marked with the name and full initials, as well as with laundry number, as follows: sheets, towels, and handkerchiefs in the corner; pillow cases in corner at open end; collars on inside near center; shirts on bands near buttonhole at back of neck; socks on leg near top; other articles where most practicable.

Requirements for Admission

Applicants for admission to The Citadel must not be less than sixteen nor more than twenty-one years of age. They must be at least five feet in height and physically able to do military duty.

Formal application for admission must be submitted by parent or guardian on the blank provided at the back of this catalog and should be mailed to the registrar not later than September 1.

The requirements for admission to the freshman class are those prescribed by the Association of Colleges and Secondary Schools of the Southern States, of which The Citadel is a member. The standards of the association require "the satisfactory completion of a four-year course of not less than fifteen units in a secondary school approved by a recognized accrediting agency, or in a secondary school that is a member of this Association, or the equivalent of such a course as shown by examination."

In accordance with the above, applicants are admitted to The Citadel either by certificate or by examination. Certificates are accepted only from accredited schools, and should be submitted directly to the college by the principal or superintendent of such school.

The required fifteen units must include:

1. Three units of English.
2. Three or more units as a principal sequence selected from one of the following groups:
 - (a) A classical language.
 - (b) A modern language, other than English.
 - (c) Social Science (history, civics, economics, geography, and sociology.)
 - (d) Mathematics.
 - (e) Natural Science (physics, chemistry, botany, zoology, general biology, general science, physiology, physiography.)
3. Two or more units as a secondary sequence selected from a second group listed under 2.
4. Two units or less in subjects selected from any of the groups listed under 2.
(Total 10 units in English and groups a-e.)
5. Five units selected from any of the secondary-school subjects accepted by an approved school for its diploma.

Mathematics must be selected as either a principal or a secondary sequence and must include one and one-half or two units of algebra and one unit of plane geometry.

One unit of history must be included as a part of a social science sequence or else as one of the five free electives.

EXAMINATIONS FOR ADMISSION

Examinations for admission to the freshman class will be held at The Citadel on September 6. Permission to stand these examinations must be secured from the registrar prior to that date.

ADVANCED STANDING

The courses of study at The Citadel are outlined on pages 29 to 40, and no student will be accepted as a candidate for a diploma who has not had this work, or its equivalent. It is therefore recommended that reference be made to the requirements for the freshman and sophomore years, before application is made for advanced standing. An applicant for advanced standing must present an honorable discharge from the college previously attended together with a transcript of his college record and entrance credits. It is also advisable to submit a copy of the college catalog, in which the applicant has marked the courses which he has taken.

Scholarships and Honors

CHARLESTON CITY SCHOLARSHIPS

There are six scholarships maintained by the City of Charleston. Each of these is worth \$250.00, which covers board (\$162.00.), the charge for room, heat, light, water, laundry, and hospital (\$72.00), and \$16.00 on the tuition account. Vacancies are filled by the city authorities.

Totals.....			1	1	1	3

FIRST DIVISION A. E. F. SCHOLARSHIPS

There are five scholarships maintained by the Society of the First Division, A. E. F. These scholarships are valued at \$550.00 each, which covers all college expenses, including uniforms and books.

In order that the benefits to be derived from this foundation may be available to applicants from any state in the union, one scholarship is awarded in each of the following districts:

1. First and Second Corps areas.
2. Third and Fourth Corps areas.
3. Fifth Corps area.
4. Sixth and Seventh Corps areas.
5. Eighth and Ninth Corps areas.

Candidates must fulfill the following requirements:

a. General worth and personality as indicated by qualities of manhood, truth, courage, devotion to duty, sympathy, unselfishness, and fellowship.

b. Exhibition of moral force of character and of instincts to lead one's schoolmates and take an interest in them.

c. Physical vigor as shown by interest and participation in manly sports.

d. Scholastic preparation sufficient to meet college entrance requirements and to do good work after entrance.

These scholarships were awarded in 1932 as follows:

1. W. A. Carr, Brooklyn, N. Y.
2. A. W. Ferguson, Bonaire, Ga.
3. D. G. McCree, St. Paul, Minn.
4. McD. Lowe, Highland Park, Ill.
5. A. L. Leonard, Jr., Los Angeles, Cal.

OTHER SCHOLARSHIPS

THE WILLIAM STATES LEE SCHOLARSHIP—the income from \$6,000.00 in bonds; founded in 1925 by William States Lee of Charlotte, N. C. Holder: A. L. James, Darlington, S. C. Vacant 1937.

THE JAMES R. CROUCH SCHOLARSHIP—the income from \$5,000.00 in bonds; founded in 1925 by James R. Crouch of Greenville, S. C. Holder: S. R. Kilgore, Woodruff, S. C. Vacant 1938.

THE QUINLAN SCHOLARSHIP—covering all college expenses, including uniforms and books; established in 1933 by Colonel and Mrs. Dennis P. Quinlan, United States Army. Candidates must fulfill the same requirements as are prescribed for the First Division, A. E. F. scholarships. Holder: J. R. Caston, Matthews, N. C. Vacant 1937.

THE COLONEL ROBERT R. McCORMICK SCHOLARSHIP—covering all expenses at The Citadel for four years; established in 1934 by Colonel Robert R. McCormick, of Chicago, Ill. The qualifications are the same as for the First Division, A. E. F. scholarships. The selection is limited to candidates from the state of Illinois. Holder: J. H. Miller, Aurora, Ill. Vacant 1938.

THE FIRST FIELD ARTILLERY BRIGADE SCHOLARSHIP—covering expenses at The Citadel for four years; established anonymously in 1934. The qualifications are the same as for the First Division, A. E. F. scholarships. The selection is limited to candidates from the state of Illinois. Vacant.

HONORS AND AWARDS

THE SCHOLARSHIP MEDAL—presented annually by the Board of Visitors to the cadet graduating at the head of his class.

GENERAL HIGH HONORS—awarded to those cadets of the graduating class who have maintained a general average of not less than 91 during the four college years.

GENERAL HONORS—awarded to those cadets of the graduating class who have maintained a general average of from 85 to 90 inclusive during the four college years.

SPECIAL HIGH HONORS—awarded to those cadets of the graduating class who have maintained a grade of not less than 91 in departmental work during the junior and senior years.

SPECIAL HONORS—awarded to those cadets of the graduating class who have maintained a grade of from 85 to 90 inclusive in departmental work during the junior and senior years.

CITATION FOR EXCELLENCE—those cadets who have made an average of not less than 90 for the year's work in any course are cited for excellence in that course.

THE GOLD STAR—awarded to those cadets who have made a general average of not less than 90 in the work of a semester; is worn on the collar of the uniform during the next semester.

THE JOHN O. WILLSON RING—the bequest of Dr. John O. Willson; given annually to the senior voted by his classmates the manliest, purest and most courteous member of his class.

THE ALGERNON SYDNEY SULLIVAN AWARDS—bronze medallions presented by the college, through the benefaction of the New York Southern Society, to students or others in recognition of high thought and noble endeavor; established by that society in 1925, the awards have been made at The Citadel since 1933.

THE STAR OF THE WEST MEDAL—originally presented to The Citadel by Dr. B. H. Teague; awarded annually for one year to the best drilled cadet.

THE W. C. WHITE MEDAL—presented annually by Mrs. W. C. White to the captain of the best drilled company.

THE COMMANDANT'S CUP—presented to The Citadel by Lieutenant-Colonel W. C. Miller; awarded annually for one year to the best drilled company.

The competitions for the **STAR OF THE WEST MEDAL**, the **W. C. WHITE MEDAL**, and the **COMMANDANT'S CUP**, are held as a part of the annual commencement exercises.

THE WASHINGTON LIGHT INFANTRY CUP—presented to The Citadel by the Washington Light Infantry; awarded annually for one year to the company whose team makes the highest score in small-bore rifle marksmanship.

Departments of Instruction

THE OBJECTIVES OF THE CITADEL

The objectives of The Military College of South Carolina are: to offer such courses in the liberal arts and sciences as will develop the mind and character of the student, increase his likelihood of success in any useful pursuit, and fit him to discharge the duties of citizenship; to give those so desiring, professional training in Civil Engineering and Business Administration; to see that its graduates are adequately equipped in their respective fields of concentration to enter in full standing post-graduate, professional, or technical schools; and to qualify them for commissions in the Officers' Reserve Corps, United States Army.

COURSES

The course of study is the same for all freshmen except for the choice of an elective as provided on page 30. Certain subjects are required in the sophomore year of all students, the remaining subjects being determined by the course which the cadet is to follow during his junior and senior years. Major work is offered in the following departments: Civil Engineering, Chemistry, Physics, English, History, Modern Languages, and Business Administration. A thorough pre-medical course is also offered.

A statement of the courses required each year in each department and a detailed description of the various courses will be found in the immediately following pages.

The session of thirty-six weeks is divided into two equal semesters. The unit of credit in the various courses is one hour a week for one semester—two hours of laboratory being counted as one. The standard course is one which has a semester credit of three; that is, a course which is taken three hours a week for one semester of eighteen weeks.

GRADES

Grades based on classroom work are given each month. An examination is held at the end of the semester covering the work of the four months. The examination counts one third and the monthly averages two thirds of the semester grade.

The monthly and semester percentages will be published only approximately by letter grade: A, representing an average of 90 to 100; B, 80 to 89; C, 70 to 79; D, 60 to 69; E, 50 to 59; F, below 50.

PASSING REQUIREMENTS

For promotion or graduation a cadet is required to have a final grade of C or better in at least half of the courses of his class and no grade

below D; in addition, in the junior and senior years, he is required to have a grade of C or better in at least half of the courses in his major subject. A course in which the final grade is E will be marked "conditioned." No cadet will be advanced to a higher class with more than one condition. A course in which the final grade is F will be marked "failed;" no credit will be given or condition allowed for such course; it must be repeated and a satisfactory record made, or an equivalent course taken.

CONDITIONS

Conditions may be removed by passing an examination or by repeating the course. Examinations may be taken in not more than two subjects. Except in the case of seniors, examinations for the removal of conditions are held immediately before the opening of college in September. A cadet who wishes to take an examination for promotion must notify the registrar in writing not later than September 1, specifying the subjects in which he wishes to be examined. If a cadet fails in the examination, a second examination will not be given until at least one semester has elapsed. A fee of two dollars will be charged for all such examinations not taken at the scheduled time unless a change of time has been authorized.

N. B.—There is so wide a degree of variation in the preparation and abilities of students when they enter college that inevitably not all will be able to complete The Citadel's requirements for graduation in four years. In every worthy case, parents are urged to accept the necessity of their son's returning to college for an additional year without any sense of stigma, but, on the contrary, with the consciousness of guiding him to a wise and manly decision.

DEGREES

A minimum total of 140 semester hours is required for graduation.

The degree of Bachelor of Science is awarded upon satisfactory completion of the civil engineering, physics, chemistry, business administration, or pre-medical courses. The degree of Bachelor of Arts is awarded upon completion of the English, history or modern language courses.

The degree of Civil Engineer is awarded to graduates in civil engineering after at least three years of responsible work in their profession and the submission of a satisfactory thesis on some engineering subject.

COURSES OF STUDY

In the following pages will be found a detailed schedule of the required curriculum for each degree according to the major subject elected. The clock hours and the credit value of each course are noted. The individual courses are described under the appropriate departmental heading in the pages following the schedules.

The biology and geology courses are given in the Department of Chemistry; the drawing in the Department of Civil Engineering; the electrical engineering in the Department of Physics; the psychology in the Department of Education.

COURSES IN FRESHMAN YEAR

Subject	Courses	Clock Hrs.		Semester Hours	Total Hours
		Rec.	Lab.		
College Algebra and Trigonometry	Math.	1	5	0	6
Rhetoric; Composition; Literature	Engl.	1	5	0	6

					34

*In the freshman year cadets may elect Drawing 1 or French 1 (or A).

Those expecting to take the Modern Language Elective Course must take French 1 (or A) (See note below).

Those expecting to take the English, History, or Business Administration Elective Course are advised to take French 1 (or A).

Those expecting to take the Civil Engineering Elective Course are advised to take Drawing 1.

A cadet who has not taken Drawing 1 and who desires to take the Civil Engineering Elective Course, or a cadet who has not taken French 1 (or A) and who desires to take the English, History or Business Administration Elective Course, may do so without penalty, provided a schedule can be arranged for necessary courses as prescribed by the head of the department in which such cadet may wish to do his major work.

NOTE—Those who enter with two or more years credit in French must take French 1; those who do not have this credit must take French A.

DEPARTMENT OF CHEMISTRY

The courses of study in this department are designed to give the fundamental training in chemistry that will enable graduates in chemistry to fill positions as assistants in commercial and industrial laboratories, to meet the demands of the medical colleges for prerequisite chemical training, and to enable those who desire to continue the study of chemistry to enter graduate schools.

The courses of study embody training in the four great fundamental subdivisions of the science: inorganic, organic, analytic, and physical chemistry.

The department occupies four commodious laboratories and four lecture rooms. Equipment and supplies are constantly maintained at a thoroughly adequate level.

Students taking the Chemistry Elective Course are required to take all the courses offered by the department and also Mathematics 1, 2, and 3; German 1 and 2; and Physics 1. Those taking the Pre-Medical Elective Course are required to take Chemistry 1, 2, 4, and 7; Mathematics 1 and 2; Physics 1 and 2; German 1 and 2; and Biology 1 and 2.

Chemistry 1. ELEMENTARY CHEMISTRY.—Required of all freshmen. Lectures and recitations, two hours a week; laboratory, two hours a week; throughout the year. Major Byrd; Lieutenant Duckett.

Theoretical and descriptive chemistry including the elements of modern chemical theory and discussions of some of the commoner industrial processes.

Textbooks: Holmes's "Introductory College Chemistry"; "Experiments and Problems for College Chemistry."

Chemistry 2. QUALITATIVE ANALYSIS.—Required of sophomores taking the Chemistry or Pre-Medical Elective Course; elective to others. Prerequisite, Chemistry 1. Lectures, one hour a week; laboratory, four hours a week; throughout the year. Major Byrd.

The separation and identification of the ordinary cations and anions.

Textbook: Engelder's "Qualitative Analysis."

Chemistry 3. QUANTITATIVE ANALYSIS.—Required of juniors taking the Chemistry Elective Course; elective to others. Prerequisite, Chemistry 1 and 2. Lectures, one hour a week; laboratory, four hours a week; throughout the year. Colonel Knox.

Gravimetric and volumetric methods of analysis including training in stoichiometry.

Textbook: Talbot's "Quantitative Chemical Analysis."

Chemistry 4. ORGANIC CHEMISTRY.—Required of juniors taking the Chemistry or Pre-Medical Elective Course. Prerequisite, Chemistry 3. However, this prerequisite is not demanded of pre-medical students. Lectures and recitations, three hours a week; laboratory, two hours a week; throughout the year. Colonel Knox.

The aliphatic and aromatic series and heterocyclic compounds. Classroom discussions and lectures and laboratory training in general reactions and synthetic methods.

Textbook: Cohen's "Theoretical Organic Chemistry."

Chemistry 5. PHYSICAL CHEMISTRY.—Required of seniors taking the Chemistry Elective Course. Prerequisite, Mathematics 2 and 3. Lectures and recitations, two hours a week; laboratory, three hours a week; throughout the year. Major Byrd.

A study of the properties of solids, liquids, and gases, and of their relation to chemical constitution.

Textbooks: Bell and Gross's "Elements of Physical Chemistry"; Davison and Van Klooster's "Laboratory Manual of Physical Chemistry."

Chemistry 6a. ORGANIC PREPARATIONS.—Required of seniors taking the Chemistry Elective Course. Prerequisite, Chemistry 4. Lectures, one hour a week; laboratory, four hours a week; first semester. Colonel Knox.

Advanced organic syntheses and technique with emphasis on purity and yield of products.

Textbook: To be announced.

Chemistry 6b. ADVANCED QUANTITATIVE ANALYSIS.—Required of seniors taking the Chemistry Elective Course. Prerequisite, Chemistry 3 and 4. Lectures, one hour a week; laboratory, four hours a week; second semester. Colonel Knox.

Wet methods; analysis of coal, iron ores, silicates, copper, lead, and zinc ores, and the like.

Textbook: To be announced.

Chemistry 7. ADVANCED GENERAL CHEMISTRY.—Required of seniors taking the Chemistry or Pre-Medical Elective Course. Prerequisite, Chemistry 1 and 2. Lectures, three hours a week; throughout the year. Colonel Knox.

A comprehensive review of inorganic chemistry with special emphasis on equilibria, the periodic law, and the relation of chemical behavior to atomic structure. A more intensive and extensive treatment of material than that given in Chemistry 1.

Textbook: Smith's "Inorganic Chemistry."

Biology and Geology

No attempt is made at The Citadel to maintain separate departments in these subjects. The courses are under the supervision of the Department of Chemistry.

The courses offered in biology meet the requirements of the more exacting medical colleges. However, since possibly no science has contributed in a larger manner to modern philosophy than these two, a

knowledge of at least their elemental aspects is a distinct contribution to the general culture of the student. Accordingly Biology 1 and Geology 1 are made available for election to all juniors and seniors. Geology 2b is offered specially for engineering students and is given in the second semester only.

Biology 1. ELEMENTARY ZOOLOGY.—Required of juniors taking the Pre-Medical Elective Course; elective to others. Lectures, two hours a week; laboratory, four hours a week; throughout the year. Captain Watkins.

The various classes of animal organisms from the standpoint of anatomy, physiology, phylogeny, and ecology. Occasional lectures are given on some of the broader aspects of the subject such as heredity, the cycle of the germ-cell, and pathogenic organisms.

Textbooks: Parker and Haswell's "Manual of Zoology"; Drew's "Invertebrate Zoology."

Biology 2. COMPARATIVE VERTEBRATE ANATOMY AND EMBRYOLOGY.—Required of seniors taking the Pre-Medical Elective Course. Prerequisite, Biology 1. Lectures, two hours a week; laboratory, two hours a week; throughout the year. Captain Watkins.

The first semester is devoted to the anatomy of the frog, turtle, fowl, and cat with special comparative reference to the anatomy of the human body; the second, to embryology.

Textbook: To be announced.

Geology 1. ELEMENTARY GEOLOGY.—Elective to all juniors and seniors. Lectures, three hours a week; throughout the year. Captain Watkins.

The various processes such as crust movements, igneous influences, weathering, erosion, denudation, and transportation, which have been instrumental in shaping the earth; the composition, structure, and arrangement of igneous and sedimentary rocks; and a survey of the historical aspect.

Textbooks: Miller's "Introduction to Physical Geology"; Miller's "Introduction to Historical Geology."

Geology 2b. ENGINEERING GEOLOGY.—Required of juniors taking the Civil Engineering Elective Course. Lectures, three hours a week; second semester. Captain Watkins.

The origin and occurrence of the three major groups of rocks, their composition, resistance to weathering, and employment in engineering construction. The various processes of dynamic geology are considered with special reference to their application to engineering practise.

Textbook: To be announced.

DEPARTMENT OF CIVIL ENGINEERING

The objective of this department is to prepare men for the profession of civil engineering. This objective is sought through a balanced program of liberal, scientific, and technological courses intended to broaden and enrich the cadet's general education as well as to lay the foundation for technical competence. The narrowing effect of too early specialization is avoided by required courses in history, English, and other liberal subjects in the freshman and sophomore years. These courses are not given as a mere gesture to liberal education but as an integral and indispensable part of an enlightened engineering curriculum.

In the junior and senior years most of the time is devoted to professional courses; however, throughout the four years engineering is taught with primary emphasis upon inculcating orderly habits of study, investigation, and sound reasoning, rather than mere acquisition of factual information. Constant attention, too, is given to engineering technique in its broader sense, that is, the characteristic method by which engineers design, organize, and direct engineering projects.

Such a curriculum, ably taught, should prepare the better students to develop mastery of such special fields as their subsequent employment may lead to, or to pursue more advanced work in the graduate schools of engineering. Also the general educational value, if properly adapted to the student's interest and aptitudes, should meet the educational demands of good citizenship irrespective of the field the graduate enters.

In so far as possible, the curriculum has been recast recently to accord with findings of exhaustive studies of engineering education in the United States. The new conception of the engineer is that of a professional man thoroughly grounded in technology but also alive to the social and economic implications of his professional activities. It appears to be clearly the duty of engineering schools to fashion its graduates in this mold.

LABORATORY.—The equipment is sufficiently complete to enable the department to give instruction in making all tests ordinarily specified for both bituminous and non-bituminous materials, along with a fairly wide range of experiments on structural materials.

SUPPLIES.—The department purchases and carries in stock all supplies and materials required in the drawing courses. These are furnished to cadets at cost, plus a small charge to cover freight and other expenses.

Drawing 1. MECHANICAL DRAWING.—Elective to freshmen. Required of those taking the Civil Engineering Elective Course. Four hours a week; throughout the year. Lieutenant Haynes; Lieutenant Case.

Use and handling of instruments; useful geometrical constructions; lettering; orthographic projection; pictorial representation; auxiliary and revolved views; sections; intersections; developments.

Textbook: French's "Engineering Drawing."

Drawing 2a. DESCRIPTIVE GEOMETRY.—Required of sophomores taking the Civil Engineering Elective Course. Two hours a week; first semester. Lieutenant Haynes; Lieutenant Case.

Descriptive Geometry, pure and applied; problems on points, lines, and planes.

Textbook: Schumann's "Descriptive Geometry."

Drawing 2b. GRAPHIC STATICS.—Required of sophomores taking the Civil Engineering Elective Course. Two hours a week; second semester. Lieutenant Haynes; Lieutenant Case.

An introduction to vector analysis, including force polygons, stress diagrams, moment diagrams, and the general application of graphic statics to the solution of engineering problems. More advanced constructions are given in Engineering 3a.

Textbook: Professor's Notes.

Drawing 3a. MACHINE DRAWING.—Required of sophomores taking the Civil Engineering Elective Course. Four hours a week; first semester. Lieutenant Haynes.

Aim: To give civil engineering students as much training in machine drawing as may be regarded as a safe minimum for civil engineers. Representation of bolts and nuts, screw-threads, springs, and other machine parts; detail and assembly drawing of some simple machine; tracing and blue printing; examination of manufacturer's drawings, with some attention to drawing-office system.

Textbook: French's "Engineering Drawing."

Drawing 3b. TOPOGRAPHICAL DRAWING.—Required of sophomores taking the Civil Engineering Elective Course. Four hours a week; second semester. Lieutenant Haynes.

Map lettering; topographical symbols; plotting surveyor's notes; contour problems; mapping field notes made in Engineering 1.

Textbooks: French's "Engineering Drawing"; Breed & Hosmer's "Elementary Surveying."

Engineering 1. PLANE SURVEYING.—Required of sophomores taking the Civil Engineering Elective Course. Recitations, three hours a week; field work, two hours a week; throughout the year. Major Anderson.

Chaining; differential and profile leveling; compass surveying; verniers; transit surveying; note keeping; land survey computations; stadia surveying; simple curves; topographical surveying; plane table; adjustment of instruments.

At the end of February, the time allotted to Drawing 3b is given to topographical drawing and thus supplements this course.

Textbook: Breed and Hosmer's "Elementary Surveying."

Engineering 2a. ANALYTIC MECHANICS.—Required of juniors taking the Civil Engineering Elective Course. Three hours a week; first semester. Colonel Le Tellier.

Statics, with special attention to framed structures; center of gravity; moment of inertia; friction; rectilinear motion; curvilinear motion; rotation; work and energy; impulse, momentum, and impact.

Textbook: Poorman's "Analytic Mechanics."

Engineering 2b. MECHANICS OF MATERIALS.—Required of juniors taking the Civil Engineering Elective Course. Three hours a week; second semester. Colonel Le Tellier.

Beams; columns; shafts; elastic curve; combined stresses; compound bars and beams; reinforced concrete stresses. Concerned largely with the application of principles expounded in Engineering 2a.

Textbook: Poorman's "Mechanics of Materials."

Engineering 3a. ANALYSIS OF STRESSES.—Required of juniors taking the Civil Engineering Elective Course. Recitation, two hours a week; drawing, two hours a week; first semester. Lieutenant Case.

Triangle of forces; composition, resolution, and equilibrium of forces; funicular polygon; graphic moments; dead and wind loads; wall reactions; stress diagrams for cantilever and unsymmetrical trusses; counterbracing; three-hinged arches; towers; beams; bridges and bridge loadings; influence lines.

Textbook: To be announced.

Engineering 4a. HIGHWAY ENGINEERING.—Required of juniors taking the Civil Engineering Elective Course. Three hours a week; first semester. Lieutenant Haynes.

Highway economics and finance; administration and legislation; materials; design; construction. Supplemented by laboratory work in Engineering 6b and 7.

Textbook: Bateman's "Highway Engineering."

Engineering 5a. ENGINEERING LAW.—Required of juniors taking the Civil Engineering Elective. Three hours a week; first semester. Colonel Le Tellier.

A general treatment of law in relation to engineering practice; law of contracts, corporations, agency; preparing, advertising, awarding, and interpreting engineering contracts; important court decisions; engineering relations and ethics.

Textbook: To be announced.

Engineering 5b. SPECIFICATIONS.—Required of juniors taking the Civil Engineering Elective Course. Three hours a week; second semester. Colonel Le Tellier.

The technique of specification writing; origin, development, and form of specifications; standard specifications; sources of material; simplification; interpretation. Practice in specification writing for materials and structures treated in other courses given in the department.

Textbook: Kirby's "Specification Writing."

Engineering 6b. ENGINEERING LABORATORY.—Required of juniors taking the Civil Engineering Elective Course. Four hours a week; second semester. Lieutenant Haynes.

Introduction to laboratory work; use of machines and instruments; strength and deformation measurements on steel, timber, and concrete; design and testing of concrete mixes.

Textbook: Professor's Notes.

Engineering 7. ENGINEERING LABORATORY.—Required of seniors taking the Civil Engineering Elective Course. Four hours a week; throughout the year. Colonel Le Tellier; Lieutenant Haynes.

General materials testing alternating with road-materials testing. Compressive, tensile, transverse, and shearing tests on steel, concrete, wood, and other materials, with measurements of deformation by strain gauges and other instruments; special attention to concrete proportioning and testing.

Standard tests and experiments on bituminous and non-bituminous road materials.

Textbook: Hatt and Scofield's "Laboratory Manual"; Professor's Notes.

Engineering 8. CONCRETE.—Required of seniors taking the Civil Engineering Elective Course. Three hours a week; throughout the year. Colonel Le Tellier.

Cement, plain concrete, and elementary principles of reinforced concrete design and construction.

Textbook: To be announced.

Engineering 9. ELEMENTARY STRUCTURAL DESIGN.—Required of seniors taking the Civil Engineering Elective Course. Recitations, two hours; drawing, two hours a week; throughout the year. Lieutenant Case.

Aim: To give an elementary knowledge of wood and steel structures, including complete design of a simple bridge.

Properties of standard structural shapes; use of handbook; riveted joints; structural details; design and fabrication of simple steel structures, including complete design of a simple bridge.

Textbook: To be announced.

Engineering 10a. HYDRAULICS.—Required of seniors taking the Civil Engineering Elective Course. Three hours a week; first semester. Major Anderson.

Pressure of water on plane and curved surfaces; stability of dams; flotation and metacenter; flow of water through orifices, over weirs, in pipes, and in open channels; elementary hydrodynamics.

Textbook: Schoder and Dawson's "Hydraulics."

Engineering 11b. WATER SUPPLY AND SANITARY ENGINEERING.—Required of seniors taking the Civil Engineering Elective Course. Three hours a week; second semester. Major Anderson.

A brief survey course. Sanitation; consumption of water; quality of water; source of supply; treatment of water; distribution. Sewerage; nature of sewage; quantity of sewage; methods of sewage disposal.

Textbooks: Waterman's "Water Supply Engineering"; Metcalf and Eddy's "Sewerage and Sewage Disposal."

Engineering 12a. PRACTICAL ASTRONOMY.—Required of seniors taking the Civil Engineering Elective Course. Three hours a week; first semester. Major Anderson.

The celestial sphere; co-ordinate systems; astronomical instruments; determination of time, latitude, longitude, and azimuth; some field work.

Textbook: Hosmer's "Practical Astronomy."

Engineering 13b. WATER POWER ENGINEERING.—Required of seniors taking the Civil Engineering Elective Course. Three hours a week; second semester. Colonel Le Tellier.

Relationship of water power to other sources of power; surveys and investigations to determine feasibility of power projects; stream flow, topography, geological features, location of dams, types of machinery, and other factors affecting design and feasibility of proposed developments; industrial development in relation to power resources; rural electrification; decentralization of industry; regulation of power companies, rate-making, and taxation.

Textbook: To be announced.

Engineering 14b. THESIS.—Required of seniors taking the Civil Engineering Elective Course. Six hours a week; second semester.

To show that he has acquired a knowledge not only of engineering theory but also of the characteristic manner in which the engineer works, each senior is required to select some topic on which a report is to be made. While independent research obviously is not required, it is expected that a survey of the literature of the subject will be made and such other investigations and assembly of material as may be necessary to prepare a well-organized, informative, and authentic report. Every senior will be assigned to some member of the department teaching staff for advice and supervision of this work.

DEPARTMENT OF ENGLISH

A reasonable mastery of the mother tongue of the Anglo-Saxon race, some acquaintance with the great men and women who have produced imperishable monuments in that tongue, some profitable contact with the more outstanding at least of those monuments, should form part of the cultural equipment of every educated man or woman. A reasonable command of the language means the ability to express one's thoughts, whether written or spoken, with clearness, ease, and force, without resort to slang or other vulgarities of speech. Such are the general objectives kept in mind by this department in planning the following courses of study. Those who elect English as their special field of concentration are offered the usual courses in advanced English.

English is required of all students at The Citadel during the first two years, and is elective, as either a major or a minor study, in the junior and senior years. Cadets majoring in English are required to take English 7 in the sophomore year as well as English 2. In the junior and senior years they are required to take two three-hour courses from those designated as open to juniors and seniors, the remaining hours to be made up as follows: In the junior year, French 4 or 5 (French 3 if French 1 was taken in the sophomore year) or German 1; Military Science 3; and two courses to be elected with the approval of the Professor of English; in the senior year, History of England; French 6 or 7 or German 3; Military Science 4; and one additional course to be elected with the approval of the Professor of English.

Freshmen who elect Drawing 1 instead of French 1 and who later decide to take the English Elective Course must take French 1 (or French A) in place of English 7 in the sophomore year and must take English 7 as one of the junior elective courses. See the tabulation of the curriculum of the English Elective Course under the heading "Courses of Study."

The elective courses are not all given every year; English 3 alternates with English 5, and English 4 with English 6. In 1935-1936 English 5 and English 6 will be given.

All who take literature courses are required to hand in frequent written reports of their parallel readings. The papers are graded and errors found are discussed in class. Parallel assignments thus become an important adjunct to the regular courses in composition and literature.

English 1(i). RHETORIC AND COMPOSITION.—Required of all freshmen. Three hours a week; throughout the year. Captain Harrison; Lieutenant Sanders; Lieutenant Reynolds.

Aim: To give a practical command of the English sentence and a reasonable mastery of good diction. In the first semester the fundamentals of grammar are reviewed and stress is laid upon spelling, punctuation, capitalization, and errors in English. The second semester is devoted to the more formal study of rhetorical principles. Frequent written exercises and weekly themes.

Textbooks: Foerster and Steadman's "Writing and Thinking"; Mark's "Better Themes."

English 1(ii). LITERATURE.—Required of all freshmen. Two hours a week; throughout the year. Captain Harrison; Lieutenant Achurch; Lieutenant Sanders; Lieutenant Reynolds.

Readings and discussions of the best magazine articles so conducted as to foster in the student a livelier interest in good literature and current problems.

Textbooks: "Harper's Monthly Magazine"; Bulfinch's "The Age of Fable."

English 2. SURVEY COURSE AND COMPOSITION.—Required of all sophomores. Three hours a week; throughout the year. Colonel McGillivray; Captain Harrison; Lieutenant Achurch.

The history of English literature covered by assigned readings in a well-written text, main emphasis being laid upon literary types chronologically arranged to show the panorama of English literature from Beowulf to Thomas Hardy. Frequent lectures, quizzes, and written reports followed by class discussion and private conferences.

Textbooks: "Century Readings in English Literature" or a similar anthology; Moody and Lovett's "History of English Literature."

English 3. SHAKESPEARE.—Open to juniors and seniors; required of those taking the English Elective Course. Three hours a week; throughout the year. Colonel McGillivray.

A study of the Elizabethan and pre-Elizabethan stage; lectures on Elizabethan English; a careful study of the more significant plays; parallel readings of the less significant. Frequent written reports.

Textbook: Craig's edition of the plays.

English 4. ARGUMENTATION AND DEBATING.—Open to juniors and seniors. Three hours a week; throughout the year. Colonel McGillivray. Assignments and discussions followed by practice in speaking.

Textbooks: Foster's "Argumentation" or a similar text; Drummond and Wagner's "Problems and Opinions" or a similar text.

English 5. ENGLISH POETRY OF THE NINETEENTH CENTURY.—Open to juniors and seniors. Three hours a week; throughout the year. Colonel McGillivray.

First semester: The Romantic poets and poetry of the period 1798 to 1830, particular emphasis being placed upon Wordsworth, Coleridge, Byron, Shelley, and Keats. Second semester: The great Victorians; Tennyson and Browning stressed. A brief study of poetics. Much parallel reading with written reports.

Textbook: Campbell and Pyre's "English Poetry of the Nineteenth Century" or a similar work.

English 6. ENGLISH PROSE OF THE NINETEENTH CENTURY.—Open to juniors and seniors. Three hours a week; throughout the year. Colonel McGillivray.

First semester: The Romantic critics and essayists, in particular Coleridge, Wordsworth, Lamb, Hazlitt, and De Quincey. Second semester: The teachings and styles of the great Victorian prose masters, Macaulay, Carlyle, Ruskin, Arnold, Newman, Huxley, and Stevenson. Written reports of parallel assignments at frequent intervals.

Textbook: Craig and Thomas's "English Prose of the Nineteenth Century" or a similar text.

English 7. WORD STUDY AND VOCABULARY BUILDING.—Open to sophomores; required of sophomores expecting to take the English Elective Course. Three hours a week; throughout the year. Colonel McGillivray.

A study of words in combination and as individuals; the historical

and cultural backgrounds of word-study; foreign and native elements; words in pairs; synonyms.

Textbooks: "The Century Vocabulary Builder"; Crabb's "English Synonymes."

English 8a. SURVEY OF AMERICAN LITERATURE.—Open to juniors and seniors. Three hours a week; first semester. Colonel McGillivray.

The history of American Literature sketched; representative works of all the more significant writers read and discussed; parallel assignments.

Textbook: "Century Readings in American Literature" or a similar text.

English 8b. MODERN DRAMA.—Open to juniors and seniors. Three hours a week; second semester. Colonel McGillivray.

Selected plays by the leading American, British, and Continental playwrights of the past twenty-five or thirty years read and discussed. Parallel assignments.

Textbooks: To be announced as needed.

DEPARTMENT OF HISTORY

The Department of History endeavors to give the student an acquaintance with and an appreciation of our heritage from the past; to enable him to see causes and effects, contrasts and comparisons as shown in the rise of modern civilization; to develop his ability to think, feel, and act as an intelligent, unprejudiced and loyal member of the community, state, and nation; to give him an accurate knowledge of the history of his own country and to familiarize him with its institutions and the democratic ideals that have influenced American life; to acquaint students who elect history with the standard works in the various fields of history studied and to prepare them to pursue graduate work.

History 1 is required of all students in the freshman class. In the sophomore year, students taking the English, History, or Modern Language Elective Course must take History 2. In the junior year, students who elect history as the subject of their major interest are required to take History 3, History 4, Government 1, and two other courses selected from those open to juniors and seniors. In the senior year they are required to take History 5, History 6, History 7, Government 2, and one other course selected from those open. See tabulation of the curriculum for the History Elective Course under heading "Courses of Study."

History 1. HISTORY OF MODERN EUROPE, 1500-1815.—Required of all freshmen. Three hours a week; throughout the year. Colonel Williams; Major Coleman; Lieutenant Davidson.

After a brief survey of the contributions of the ancient world and of the Middle Ages to European civilization, the course proper deals with the important political, economic and intellectual achievements

from the opening of the sixteenth century to the close of the eighteenth. It treats of the spirit of reform and revolt, the expansion of Europe and the various aspects of the "old regime." Throughout the course, everything touching English and American history is duly emphasized.

Textbook: Hyma's "Europe from the Renaissance to 1815."

History 2. HISTORY OF MODERN EUROPE, 1815-1924.—Required of sophomores taking the English, History, or Modern Language Elective Course. Three hours a week; throughout the year. Lieutenant Davidson.

A continuation of study begun in the freshman class. The text supplemented by lectures to a greater extent than in History 1, and more importance attached to collateral reading. Special attention paid to the Industrial Revolution, the rise of nationalism in Germany and Italy, the revolutionary influence of France, and the political progress of England. The causes of the Great War and the temporary settlement of 1920 studied. Throughout the course, attention directed to the conditions under which the various movements were carried on. As in preceding course, everything touching English and American history stressed.

Textbook: Schapiro's "Modern and Contemporary European History."

History 3. THE MIDDLE AGES, 395-1500.—Required of juniors taking the History Elective Course. Three hours a week; throughout the year. Colonel Williams.

The institutions, life and thought of Europe from the disintegration of the Roman Empire to the rise of the modern states; the influence of this period in the development of our modern life. Special emphasis given to the Renaissance and the Reformation. Parallel readings and written reports.

Textbooks Munro and Sontag's "The Middle Ages."

History 4. AMERICAN HISTORY TO 1865.—Required of juniors taking the History Elective Course. Three hours a week; throughout the year. Lieutenant Davidson.

A general study of American history from the period of British colonial administration to 1865. Emphasis laid upon the conflict of imperial and colonial interests in order to understand the underlying causes of the Revolution and the growth of the spirit of independence and union. The religious, educational and social ideals of the founders of the republic treated in a way to provide an understanding of present day Americanism. Special attention given to the growth of the Old West, the "Cotton Kingdom" in the South, and the industrial beginnings in the North. The causes of the War Between the States treated from territorial, constitutional, and social aspects. Collateral reading and written reports.

Textbook: Hockett's "Political and Social Growth of the United States," Vol. 1.

History 5. AMERICAN HISTORY FROM 1865 TO THE PRESENT.—Required of seniors taking the History Elective Course. Three hours a week; throughout the year. Lieutenant Davidson.

Emphasizes the social and industrial results of the War Between the States as well as the political and constitutional changes which followed its conclusion. Detailed attention given to the Economic Revolution in the North, Reconstruction and the New South, and the agrarian unrest in the transformed West. Twentieth Century America, its progressive movements, intellectual ferment and expanding sphere of influence topically treated through the period of the World War. Collateral reading and written reports.

Textbook: Schlesinger's "Political and Social Growth of the United States," Vol. 2.

History 6. ENGLISH HISTORY.—Required of seniors taking the English or the History Elective Course. Three hours a week; throughout the year. Colonel Williams.

The history of England from its origin to the present time. Special attention given to the formation of the English Constitution in the Middle Ages, to the growth of the limited monarchy, and to the evolution of Parliament. Emphasizes the characteristic institutions of the English political system and their influence upon other peoples. Throughout the course the social and economic factors which conditioned political changes are stressed. Parallel reading and written reports.

Textbook: Lunt's "History of England."

History 7. RECENT AND CONTEMPORARY HISTORY.—Required of seniors taking the History Elective Course. Three hours a week; throughout the year. Major Coleman.

The causes and happenings of the World War, of the Peace Conference, of the League of Nations, and of the events since the Peace Conference. Attention given to American as well as to European and Asiatic affairs. Intended to prepare the student for a more intelligent understanding of those problems which are of most importance in the present international situation.

Textbook: Bennis's "Europe Since 1914."

Government 1.—AMERICAN GOVERNMENT AND POLITICS.—Open to seniors and juniors. Required of juniors taking the History Elective Course. Three hours a week; throughout the year. Major Coleman.

A comprehensive survey of the American political system. The structure and operation of federal, state, and local institutions. Aim: to develop in the student an appreciation of the fundamental principles that underlie the operation of his government and to give him an insight into the responsibilities of citizenship.

Textbook: Beard's "American Government and Politics."

Government 2a. THE ORIGINS OF THE FEDERAL SYSTEM.—Open to juniors and seniors. Required of seniors taking the History Elective Course. Three hours a week; first semester. Major Coleman.

The English and colonial origins of the American governmental system. With the view of understanding the underlying philosophy and basic principles of the Constitution, attention given to the part which social, economic, and political conditions played in the framing and adoption of the organic law.

Textbook: To be announced.

Government 2b. THE CONSTITUTIONAL LAW OF THE UNITED STATES.—Open to seniors and juniors. Government 2a prerequisite. Required of seniors taking the History Elective Course. Three hours a week; second semester. Major Coleman.

Aim: To acquaint the student with the way in which the Supreme Court of the United States does its work, and with some of the great decisions of that tribunal which have served as landmarks in the development of the American constitutional system.

Textbook: To be announced.

DEPARTMENT OF MATHEMATICS

Mathematics is required of all students in the freshman class. The course is planned to meet the traditional requirements in mathematics for a general education and to prepare for further study those students who expect to major in engineering or in one of the sciences.

The other courses in mathematics are planned to meet the needs of students according to major electives.

All students taking the Chemistry, Civil Engineering, or Physics Elective Course are required to take Mathematics 2a, 2b, 3a, and 3b.

Mathematics 1 (i). COLLEGE ALGEBRA.—Required of all freshmen. Five hours a week; three months of the first semester. Major Hair; Major Myers; Captain Saunders; Lieutenant Gravely.

A short review of the elements of algebra, and a study of the more important topics of higher algebra.

Textbook: Rosenbach and Whitman's "College Algebra."

Mathematics 1(ii). SOLID GEOMETRY.—Required of all freshmen. Five hours a week for approximately two months during the last part of the first semester and the first part of the second semester. Major Hair; Major Myers; Captain Saunders; Lieutenant Gravely.

A brief course with emphasis on problems in mensuration.

Textbook: Young and Schwartz's "Solid Geometry."

Mathematics 1 (iii). PLANE TRIGONOMETRY.—Required of all freshmen. Five hours a week; three months of the second semester. Major Hair; Major Myers; Captain Saunders; Lieutenant Gravely.

A study of trigonometry and its applications. Problems in mensuration and surveying considered. All the important formulae derived and ample practice given in handling trigonometric identities.

Textbook: Oglesby and Cooley's "Plane and Spherical Trigonometry."

Mathematics 2a. ANALYTIC GEOMETRY.—Required of sophomores taking the Chemistry, Civil Engineering, or Physics Elective Course. Five hours a week; first semester. Major Hair; Major Myers; Captain Saunders; Lieutenant Gravely.

A study of the straight line and conics. A short course in Solid Analytic Geometry, including points, lines, planes, and the more common types of surfaces, also given.

Textbook: Smith, Gale, and Neelley's "Plane and Solid Analytic Geometry."

Mathematics 2b. DIFFERENTIAL CALCULUS.—Required of sophomores taking the Chemistry, Civil Engineering, or Physics Elective Course. Five hours a week; second semester. Major Hair; Major Myers; Captain Saunders; Lieutenant Gravely.

Differential Calculus from the viewpoint of the theory of limits. Practice given in differentiation and many problems worked.

Textbook: Ford's "Differential and Integral Calculus."

Mathematics 3a. INTEGRAL CALCULUS.—Required of juniors taking the Chemistry, Civil Engineering, or Physics Elective Course. Three hours a week; first semester. Major Hair; Major Myers.

Much practice given in formal integration; application of the principles and methods of the calculus in the solution of problems in engineering and physics emphasized.

Textbook: Ford's "Differential and Integral Calculus."

Mathematics 3b. DIFFERENTIAL EQUATIONS.—Required of juniors taking the Chemistry, Civil Engineering, or Physics Elective Course. Three hours a week; second semester. Major Hair; Major Myers.

An elementary course covering the more common types of differential equations occurring in physics, mechanics, hydraulics, chemistry, and electricity.

Textbook: Phillips's "Differential Equations."

DEPARTMENT OF MODERN LANGUAGES

The objectives of the Department of Modern Languages are to furnish students who major in this branch a thorough knowledge of written and spoken French, a good understanding of the important writers and literary movements in France since the early part of the seventeenth century, and proficiency in a second language and literature, Spanish or German, so that they may be competent to teach languages in secondary schools or to pursue graduate work in languages.

Students who elect languages as their major field must take French 4, 5, 6, and 7 after completion of French 2 or 3. In addition, they must take either Spanish 1, 2, and 3, or German 1, 3, and 4. A thorough grounding in these languages is offered with extensive reading and a survey of the respective literatures. Students wishing to take languages

as minor courses may elect any for which they have taken the prerequisites. German 2 is a course offered only to those students who are doing their major work in science and who wish to acquire some knowledge of scientific German.

French

French A. ELEMENTARY FRENCH.—For freshmen who elect French and have entered The Citadel with less than two units in that language. Three hours a week throughout the year. Lieutenant Reynolds.

The elements of French Grammar with special emphasis on the verb; constant drill in pronunciation; dictation; translation of simple French into idiomatic English.

Textbook: Huse's "Essentials of Written and Spoken French." Reading texts vary from year to year.

French 1. ADVANCED FRENCH.—For freshmen who elect French and have entered The Citadel with two or more units in that language. Three hours a week; throughout the year. Lieutenant Price.

A considerable portion of the time devoted to the reading of French texts, constant attention being given to the improvement of pronunciation. Grammar reviewed and connected passages of English translated into French. The more important irregular verbs learned.

Textbook: Barton and Sirich's "New French Review Grammar and Composition." Reading texts vary from year to year.

French 2. FRENCH GRAMMAR AND READING.—For sophomores who have completed French 1. Three hours a week; throughout the year. Major Dufour.

Half of the time devoted to the reading of various French texts with constant attention to the improvement of pronunciation. The grammar begun in French A completed and a drill in the irregular verbs given.

Textbook: Huse's "Essentials of Written and Spoken French." Reading texts vary from year to year.

French 3. FRENCH READING AND GRAMMAR.—For Sophomores who have completed French 1. Three hours a week throughout the year. Lieutenant Price.

The grammar and composition work begun in French 1 completed. French texts of increasing difficulty read. A brief survey of French literature given.

Textbook: Barton and Sirich's "New French Review Grammar and Composition." Reading texts vary from year to year.

French 4. FRENCH COMPOSITION AND CONVERSATION.—Required of juniors taking the Modern Language Elective Course. Open to juniors who have completed French 2 or 3. Three hours a week throughout the year. Major Dufour.

While much time is devoted to formal composition, special effort is made to develop in the student facility in the the expression of his own

ideas in French. Articles from French newspapers used as a basis of classroom discussion.

Textbook: Olmstead and Barton's "French Composition and Conversation."

French 5. FRENCH LITERATURE.—Required of juniors taking the Modern Language Elective Course. Open to juniors who have completed French 2 or 3. Three hours a week; throughout the year. Lieutenant Price.

Brief introductory lectures on French literature before Corneille. Special emphasis placed on Corneille, Molière, Racine, Boileau and the classical theory, the transition from seventeenth to eighteenth century ideas, and Montesquieu. For the non-dramatic writings of the period an anthology used. Collateral readings and reports.

Textbook: Harper's "Anthology of French Literature."

French 6. FRENCH COMPOSITION AND CONVERSATION.—Required of seniors taking the Modern Language Elective Course. Open to seniors who have completed French 4. Three hours a week; throughout the year. Major Dufour.

A continuation of French 4. In place of formal composition, stress is laid on free composition. Much time devoted to conversation based on some text. On the completion of this course the student should be able to express his ideas in French with some fluency.

Textbook: Ratti's "French Composition and Conversation."

French 7. FRENCH LITERATURE.—Required of seniors taking the Modern Language Elective Course. Open to seniors who have completed French 5. Three hours a week; throughout the year. Lieutenant-Colonel Winship.

A continuation of French 5. The development of philosophical thought in the eighteenth century from time of Voltaire; the beginning and growth of romanticism in France with special attention to Rousseau, Mme. de Stael, Chateaubriand, Lamartine, De Vigny, and Victor Hugo; later movements and authors of the nineteenth century. Collateral readings and reports.

Textbook: Harper's "Anthology of French Literature."

German

German 1. ELEMENTARY GERMAN.—Required of sophomores taking the Chemistry or Pre-Medical Elective Course. Open to other sophomores. Three hours a week; throughout the year. Lieutenant-Colonel Winship; Major Dufour.

Aim: To give the student a grounding in German grammar and pronunciation, and the ability to translate simple German texts into idiomatic English.

Textbook: Voss's "Essentials of German." Reading texts vary from year to year.

German 2. SCIENTIFIC GERMAN.—Required of juniors taking the Chemistry or Pre-Medical Elective Course. Open to other juniors taking science courses who have had German 1. Three hours a week; throughout the year. Lieutenant-Colonel Winship.

The grammar begun in German 1 completed early in the course and the greater part of the time devoted to the translation of German texts relating to chemistry, physics and biology. Special stress placed on word building; vocabulary tests given frequently to fix in the student's mind the words and idioms of frequent occurrence in scientific German.

Textbook: Reading texts vary from year to year.

German 3. GERMAN READING AND COMPOSITION.—Open to juniors who have completed German 1. Required of juniors taking the Modern Language Elective Course who have selected German as their secondary language. Three hours a week; throughout the year. Lieutenant-Colonel Winship.

The grammar begun in German 1 completed. Pope's "Writing and Speaking German" begun. As an introduction to German literature Fleissner and Fleissner's "Deutsches Literatur Lesebuch," Lessing's "Minna von Barnhelm," and a drama of Schiller's are read. Constant improvement in German pronunciation is one of the aims.

Textbooks: Voss's "Essentials of German;" Pope's "Writing and Speaking German;" Fleissner and Fleissner's "Deutsches Literatur Lesebuch." Reading texts vary from year to year.

German 4. GERMAN COMPOSITION AND LITERATURE.—Open to seniors who have completed German 3. Required of seniors taking the Modern Language Elective Course who have selected German as their secondary language. Three hours a week; throughout the year. Lieutenant-Colonel Winship.

Pope's "Writing and Speaking German" completed; selections from the works of Lessing, Schiller, Goethe, and Heine. Collateral reading and reports.

Textbook: Pope's "Writing and Speaking German." Reading texts vary from year to year.

Spanish

Spanish 1. ELEMENTARY SPANISH.—Open to sophomores. Required of sophomores taking the Modern Language Elective Course who select Spanish as their secondary language. Three hours a week; throughout the year. Lieutenant Price.

The essentials of Spanish Grammar with attention to pronunciation. Radical, orthographical changing, and irregular verbs mastered. Reading of simple Spanish texts begun early in the course.

Textbook: Hills and Ford's "Spanish Grammar for Colleges." Reading texts vary from year to year.

Spanish 2. SPANISH READING AND COMPOSITION.—Open to juniors who have completed Spanish 1. Required of juniors taking the Modern

Language Elective Course who have selected Spanish as their secondary language. Three hours a week; throughout the year. Lieutenant-Colonel Winship.

Part of the time devoted to Spanish composition and conversation. Extensive reading of modern novels of Spain or Spanish America.

Textbook: Rivera's "Libro de Temas Espanoles."

Spanish 3. SPANISH COMPOSITION AND LITERATURE.—Open to seniors who have completed Spanish 2. Required of seniors taking the Modern Language Elective Course who select Spanish as their secondary language. Three hours a week; throughout the year. Lieutenant-Colonel Winship.

Introduction to the history of Spanish Literature. Representative works of the Siglo de Oro read; composition and conversation continued.

Textbooks: Northrup's "Introduction to Spanish Literature;" Schvill's "Cervantes;" Calderon's "Alcalde de Zalamea;" and others.

DEPARTMENT OF MILITARY SCIENCE AND TACTICS

Military training is required of all students whether they be enrolled in the R.O.T.C. or not. The instruction is given in the classroom or on the drill field, or both.

Military Science and Tactics 1. FIRST YEAR BASIC.—Required of all freshmen.

INFANTRY

Military Courtesy and Discipline,
and Customs of the Service.

Obligations of Citizenship; Social
Customs and Etiquette.

R.O.T.C. and National Defense
Act.

Military History and Policy of the
United States.

Duties of Private of the Guard.
Drill and Command.

Rifle Marksmanship.

Sanitation, Hygiene, and First Aid.

Automatic Rifle—Mechanism.

Machine Gun—Mechanism and
Drill.

Map Reading.

COAST ARTILLERY

Military Courtesy and Discipline,
and Customs of the Service.

Obligations of Citizenship; Social
Customs and Etiquette.

R.O.T.C. and National Defense
Act.

Military History and Policy of the
United States.

Duties of Private of the Guard.
Drill and Command.

Rifle Marksmanship.

Sanitation, Hygiene, and First Aid.

155-mm. Gun.

75-mm. Anti-Aircraft Gun.

Military Science and Tactics 2. SECOND YEAR BASIC.—Required of all sophomores.

INFANTRY

Drill and Command.
Duties of N.C.O.'s of the Guard.
Military History.
Scouting and Patrolling.
Musketry.
Automatic Rifle.
Combat Principles.

COAST ARTILLERY

Drill and Command.
Duties of N.C.O.'s of the Guard.
Fire Control for Sea Coast and Anti-Aircraft Guns.
Identification of Air and Naval Targets.

Military Science and Tactics 3. FIRST YEAR ADVANCED.—Required of all juniors.

INFANTRY

Drill and Command.
Reading Aerial Photographs.
Field Engineering.
Methods of Instruction.
Machine Gun.
37-mm. Gun.
3-inch Trench Mortar.
Pistol and Rifle.
Tactics and Technique.

COAST ARTILLERY

Drill and Command.
Map and Aerial Photograph Reading.
Methods of Instruction.
Sea Coast Gunnery and Position Finding.
Anti-Aircraft Gunnery and Position Finding.
Combat Orders.
Estimate of the Situation.

Military Science and Tactics 4. SECOND YEAR ADVANCED.—Required of all seniors.

INFANTRY

Drill and Command.
Military History and Policy.
Military Law.
Administration and Supply.
Methods of Instruction.
Combat Training.
Tanks and Mechanization.
Defense against Airplanes and Gas.
Combat Intelligence.

COAST ARTILLERY

Drill and Command.
Military History and Policy.
Military Law.
Administration and Supply.
Methods of Instruction.
Field Engineering.
Motor Transportation.
Orientation.
Tactics and Technique.

DEPARTMENT OF PHYSICS

It is the purpose of the Department of Physics to offer to all students at The Citadel a fundamental course in one of the basic physical sciences; to afford to pre-medical students adequate preparation in physics for admission to the best medical schools, and to offer to students specializing in other departments such advanced courses in physics as are necessary to meet their needs. To students taking their major work in the department, it offers a program of courses sufficient to enable them to enroll as graduate students in full standing at the leading universities.

To students interested in the profession of electrical engineering it aims to give such an introduction to the subject as will enable them to secure technical positions in this field, or to complete the work in the best schools of engineering in two years.

The department occupies the entire second floor and part of the first floor of the east wing of Bond Hall. On the second floor are two lecture rooms, two general laboratories, apparatus rooms and laboratories for special purposes. On the first floor are located the work-shop, dynamo laboratory, and storage-battery room. The arrangement and equipment of the laboratories and lecture rooms is modern and complete. A good supply of apparatus and measuring instruments gives excellent facilities for individual experiment and demonstration work.

Students taking the Physics Elective Course as their major work are expected to take all the courses offered in the department. In addition, they must take Mathematics 1, 2, and 3 and are advised to include Mechanical Drawing (Drawing 1), Chemistry 2, and German among their electives.

Physics 1. INTRODUCTION TO COLLEGE PHYSICS.—Required of all sophomores except those taking the Business Administration Elective Course. Recitations, three hours a week; laboratory practice, two hours a week; throughout the year. Colonel Smith; Captain Brenner; Captain Razor.

Assumes no previous knowledge of physics; covers the less mathematical portion of mechanics, heat and electricity. The laboratory work consists of about thirty individual quantitative experiments based on the fundamental principles studied in the lecture room.

Textbook: Stewart's "Physics."

Physics 2. ADVANCED GENERAL PHYSICS.—Junior elective. Lectures and recitations, three hours a week; throughout the year. Colonel Smith.

A continuation of Physics 1; covers those portions of mechanics, heat and electricity not included in the earlier course, and an introduction to the study of sound and light. Mechanics and heat are studied during the first semester, and electricity, sound and light, during the second.

Textbook: Stewart's "Physics."

Physics 3. LABORATORY PHYSICS.—Junior elective. Six hours a week; throughout the year.. Captain Brenner.

Except for necessary explanation, discussion and problem work based on the experiments, the entire time is devoted to laboratory work. The experiments are of a more advanced character than those in Physics 1, and involve the use of most of the standard instruments of physical measurement. About seventy experiments performed, affording a study from the laboratory standpoint of most of the topics considered in Physics 2.

Physics 4. ADVANCED PHYSICS.—Senior elective. Lectures and recitations, three hours a week; laboratory work, six hours a week; throughout the year. Colonel Smith; Captain Brenner.

The subject matter will be varied from year to year to meet the needs of the student. The course for 1934-35 is as follows:

First semester: WAVE-MOTION, SOUND AND LIGHT.—The general equations of wave-motion developed and a study made of their application to sound and light. The laboratory work consists of eight experiments in sound and about twenty-five in light.

Textbook: Robertson's "Physical Optics."

Second semester: ELECTRON PHYSICS AND RADIO COMMUNICATION.—Maxwell's theory of electro-magnetic waves first presented and then its experimental verification by Hertz. The practical application of the theory to radio communication studied both theoretically and experimentally. A special study made of thermionic emission in electron tubes, photo-electric cells, cathode ray tubes and their application to television.

Textbook: Morecroft's "Elements of Radio Communication."

Optional courses will be offered in other years in Thermodynamics or Modern Physics.

Electrical Engineering 1. ELECTRICAL ENGINEERING.—Senior elective. Required of seniors taking Civil Engineering Elective Course. Lectures and recitations, three hours a week; throughout the year. Captain Razor.

An introductory course in electrical engineering, covering the theory of direct and alternating currents as applied to commercial machinery.

Textbook: Cook's "Elements of Electrical Engineering."

Electrical Engineering 2. ELECTRICAL LABORATORY.—Senior elective. Laboratory work, six hours a week; throughout the year. Captain Razor.

A study from the laboratory standpoint of the principal types of direct and alternating current generators and motors, and of motor-generators, rectifiers and transformers. The machines are operated under practical working conditions and their characteristic curves obtained. The first semester is devoted to a study of direct current machinery and the second to alternating currents.

Textbook: Cook's "Elements of Electrical Engineering."

DEPARTMENT OF BUSINESS ADMINISTRATION

Modern business has become so large in the size of industrial units and so complex in organization that a mastery of its theory and practice can no longer be acquired through apprenticeship. Today no single industry or business can give so adequate a training to its beginners as can be obtained in the department of business administration of a good college. Such college training is now considered the best method of equipping a man for success as a business and economic leader.

The purpose of the department at The Citadel is to give business and economic instruction to prepare the student to take his place in a business enterprise with such general knowledge of business that he can forego many of the years of experience which would be required of an apprentice, to enter in full standing the graduate schools of business administration in the United States, to pursue further professional business studies, and to take his place in economic society as a professional man in other fields of endeavor with sufficient knowledge to make sound decisions on economic problems.

In the description of the courses given the designation "Business Administration" identifies the department and does not characterize the course of study. The courses are intentionally designed to offer instruction in subjects commonly given in schools of arts, literature and science, in schools of social science, and in schools of business administration.

Business Administration 22a. ECONOMIC HISTORY.—Required of all sophomores taking the Business Administration Elective Course. Three hours a week; first semester. Captain Tiedeman; Lieutenant Lewis.

Some of the early economic institutions—slavery; community system; despotism; manorial system; guild system; early factory system; development of present-day capitalistic order. The discussion, conducted on the basis of comparison, is for the purpose of determining the origin and development of the essential characteristics of modern capitalism.

Business Administration 22b. ECONOMIC PRINCIPLES.—Required of all sophomores taking the Business Administration Elective Course. Three hours a week; second semester. Captain Tiedeman; Lieutenant Lewis.

An introduction to the principles of economics; the concepts of wealth, capital, income, specialization and exchange, production, land, labor, organization of industry, risks, money, banking, credit, prices, supply, demand, distribution, and consumption.

Business Administration 23a. RAW MATERIAL RESOURCES.—Required of all sophomores taking the Business Administration Elective Course. Three hours a week; first semester. Major Lewis.

A study of the geography and the economics of raw materials of the United States; the location, the quantity, the values before and after manufacturing; manufacturing processes; relative importance to economic society.

Business Administration 24b. MARKETING.—Required of all sophomores taking the Business Administration Elective Course. Three hours a week; second semester. Lieutenant Lewis.

The business activities necessary to effect the physical distribution of goods from the producer of the raw materials to the consumer; the marketing institutions; a study of the marketing functions and some marketing problems such as price policies and price maintenance, brands, marketing costs and efficiency.

Business Administration 25a. MATHEMATICS OF FINANCE.—Required of all sophomores taking the Business Administration Elective Course. Three hours a week; first semester. Major Myers.

Mathematics as applied to interest, discounts, annuities, bonds, capitalization, depreciation, amortization, insurance; elements of statistical mathematics.

Business Administration 25b. ELEMENTS OF STATISTICS.—Required of all sophomores taking the Business Administration Elective Course. Three hours a week; second semester. Major Myers.

A study of elementary statistics including such topics as distribution, averages, dispersion, skewness, correlations, and methods of graphic presentation; index numbers, business cycles and trends as measures for the economist; practical uses of statistics in budgeting, accounting, forecasting, market analysis, banking, production, and labor.

Business Administration 30. ECONOMIC PRINCIPLES.—Open to juniors and seniors in all Elective courses. Three hours a week; throughout the year. Captain Tibbetts.

An examination of the fundamental principles of economics including our present economic organization, price determining forces, elementary concepts of money, banking and exchange, problems of modern business organization, distribution of wealth and income, economics of government, problems of labor; reforms and substitutes that have been suggested for capitalism such as profit-sharing, co-partnership, socialism, communism, fascism.

Business Administration 31. ACCOUNTING.—Required of all juniors taking the Business Administration Elective Course. Four hours a week; throughout the year. Captain Tiedeman.

A thorough discussion of record-making, with emphasis on recording and analysis of transactions, the proper forms to be used, and the preparation of correct and informative reports; weekly practical problems in the laboratory.

Business Administration 32. BUSINESS LAW.—Required of all juniors taking the Business Administration Elective Course. Three hours a week; throughout the year. Captain Tiedeman.

A discussion of the law which relates to the business man; contracts, agency, negotiable instruments, business association, sales, bailments, security relations, real property, and the like. Discussion of court decisions in actual cases supplements the class work.

Business Administration 33a. PRINCIPLES OF LABOR.—Required of all juniors taking the Business Administration Elective Course. Three hours a week; first semester.

An analysis of the worker's position in modern industry and the effects of industrial production on the worker's social position, introducing problems of wages, hours, working conditions, child labor, industrial accidents, unemployment, trade unions and collective bargaining. Economic problems of the worker under current labor legislation are considered.

Business Administration 33b. EMPLOYMENT MANAGEMENT.—Required of all juniors taking the Business Administration Elective Course. Three hours a week; second semester.

The principles and practices in the management of employees which introduce positive stimuli into industrial endeavors and promote the industrial efficiency of labor, treating such factors as selection and placement, training, job analysis, promotion, turnover, health, morale building, and recreation.

Business Administration 34a. GOVERNMENT FINANCE.—Required of all juniors taking the Business Administration Elective Course. Three hours a week; first semester. Captain Tibbetts.

A survey of the amount and purposes of American governmental expenditures; scope of governmental activity; public budgets; control of local finances; custody of funds; principles, forms, and effects of public borrowing.

Business Administration 34b. TAXATION.—Required of all juniors taking the Business Administration Elective Course. Three hours a week; second semester. Captain Tibbetts.

A study of the sources of revenue; constitutional limitations on governmental taxing powers; theories of tax distribution; shifting and incidence; a survey of the general principles and practices of the property tax, corporation, and other business taxes, personal tax, inheritance tax, highway, and commodity taxes.

Business Administration 35a. BUSINESS PSYCHOLOGY.—Required of all juniors taking the Business Administration Elective Course. Three hours a week; first semester. Major Prouty.

The psychology applied in the management of the personnel of a business unit; production, sales control; tests and measurements before and after employment; advertising and selling; labor problems and organizations.

Business Administration 36b. BUSINESS ORGANIZATION.—Required of all juniors taking the Business Administration Elective Course. Three hours a week; second semester. Major Lewis.

The legal relations of a business unit; kind of organization best adapted to various sorts of business activity; internal organization for maximum efficiency.

Business Administration 41. ACCOUNTING.—Required of all seniors taking the Business Administration Elective. Four hours a week; throughout the year. Lieutenant Lewis.

The theory and practice of corporate accounts; accounts as tools of management; the development of financial statements, valuation, and budgeting; accounting for bankruptcy, receivership, and reorganization and consolidation; special accounting systems such as municipal and estate.

Business Administration 42a. CORPORATION FINANCE.—Required of all seniors taking the Business Administration Elective Course. Three hours a week; first semester. Major Lewis.

The manager's problem in securing, disposing of, conserving and using the finances of his business; the legal and practical uses of bonds, stock, circulating capital; development of policies regarding dividends, surplus, income, expenses, and capitalization in relation to the size of the business unit and type of integration.

Business Administration 43b. INVESTMENTS.—Required of all seniors taking the Business Administration Elective Course. Three hours a week; second semester. Major Lewis.

Analysis of government, state, municipal, public utility, railroad, and industrial bonds; discussion of tendency to regard stocks as investments; the tests of a good investment which may be applied to securities so that the untrained person can at least be aware of the nature of his investments and the protection available to him.

Business Administration 44a. FOREIGN TRADE.—Required of all seniors taking the Business Administration Elective. Three hours a week; first semester. Lieutenant Lewis.

The channels of distribution for surplus goods which have to find their outlet in foreign countries; the theory of international trade; foreign trade promotion activities; the commercial organization and policies governing foreign trade practices; trade methods and problems; financial arrangements.

Business Administration 45b. RAILWAY TRANSPORTATION.—Required of all seniors taking the Business Administration Elective Course. Three hours a week; second semester. Major Lewis.

The development of the railroad systems; the theories of rates and rate making; the theories of regulation and rights of governments to regulate; the problems of co-ordination of other forms of transportation with the railroads.

Business Administration 46a. MONEY.—Required of all seniors taking the Business Administration Elective Course.. Three hours a week; first semester. Captain Tibbetts.

The nature and functions of money; monetary standards; the development and use of the several kinds of money media in the United States; factors affecting the value of money; international exchange; control of credit; recent monetary developments in the United States.

Business Administration 46b. BANKING.—Required of all seniors taking the Business Administration Elective Course. Three hours a week; second semester. Captain Tibbetts.

The development of banking in the United States; description of commercial banking operations; special emphasis on organization, operation, and economic effect of the Federal Reserve System; recent banking changes.

Business Administration 47. PRODUCTION.—Required of all seniors taking the Business Administration Elective Course. Three hours a week; throughout the year.

The problems of the production manager; location, design of plant, internal and external transportation, inventory control, methods of measuring activities of personnel, incentives, efficiencies, budgets, and organization.

DEPARTMENT OF EDUCATION AND PSYCHOLOGY

Education

The courses are designed to meet the professional requirements for teachers in the high schools of the southern states. They have also been selected on the basis of the *Commonwealth Study of Teacher Training*. In general eighteen semester hours in education are required for a teacher's certificate, and, for that reason, cadets who plan to make teaching their profession should arrange their course of study during the junior and senior years to include Education 1, 2, and 3. It is recommended that Psychology 1 also be included.

Education 1a. INTRODUCTION TO EDUCATION.—Elective for juniors. Three hours a week; first semester. Captain Lyon.

Intended to orient the student in his approach to the study of education. A survey of educational history with special emphasis on the South given as a background. The organization and administration of schools in the United States studied, and the various phases of education in South Carolina analyzed. Class discussions, readings, and reports.

Textbook: To be announced.

Education 1b. EDUCATIONAL PSYCHOLOGY.—Elective for juniors. Three hours a week; second semester. Captain Lyon.

A definite application of the teachings of psychology to education. Such topics as the following considered: The laws of learning, transfer of training, individual differences, educational tests, and the problem child.

Textbook: Pressey's "Psychology and the New Education."

Education 2a. SECONDARY EDUCATION. Elective for juniors and seniors. Three hours a week; first semester. Captain Lyon.

The history and present status of the American High School; the objective of secondary education considered in the light of subjects taught in the high schools in South Carolina. Emphasis upon pupil growth in an everchanging social order. Class discussion, and readings.

Textbook: To be announced.

Education 2b. CLASSROOM MANAGEMENT.—Elective for juniors and seniors. Three hours a week; second semester. Captain Lyon.

The newer concept of discipline and class management, with emphasis on the problems of pupil personnel. Report forms, attendance cards, school census studies, personnel sheets, age grade tables, examined and analyzed. Class discussions and readings.

Textbook: To be announced.

Education 3a. PRINCIPLES OF TEACHING IN THE HIGH SCHOOL.—Elective for juniors and seniors. Three hours a week; first semester. Captain Lyon.

Considers the fundamental principles of teaching, and various plans for more effective learning in the high school, with emphasis on the newer methods. Tests, examinations, and marking analyzed in the light of scientific studies. Class discussion, and readings.

Textbook: To be announced.

Education 3b. EDUCATIONAL PHILOSOPHY.—Elective for juniors and seniors. Three hours a week; second semester. Captain Lyon.

The individualistic and social philosophies of education, with emphasis on the demands society makes on the prospective citizen. Class discussions, readings, and reports.

Textbook: Tuttle's "The Social Basis of Education."

Psychology

Psychology 1. GENERAL PSYCHOLOGY.—Elective. Three hours a week; throughout the year. Major Prouty.

Aim: To present the more generally known and accepted facts of modern experimental psychology with the purpose of leading the student to approach objectively the problem of understanding himself and other people, especially in connection with the adjustments necessary between individual needs and demands of the environment.

Textbook: Warren and Carmichael's "Elements of Human Psychology."

Psychology 2a. SOCIAL PSYCHOLOGY.—Elective for seniors. Three hours a week; first semester. Major Prouty.

The social features of individual behavior and the relation of the individual to the social order. Collateral reading and written reports.

Textbook: Folsom's "Social Psychology."

Psychology 2b. SOCIAL PROBLEMS.—Elective for seniors. Three hours a week; second semester. Major Prouty.

The more outstanding problems of contemporary life, from the point of view of social trends and individual reactions. The etiology of these problems and suggested ways of meeting them.

Textbook: Bossard's "Social Change and Social Problems."

CADETS—SESSION 1934-1935
